

BEAD MAKING REAMERS & BRUSHES

Beads don't fit? These reamers should fix your problem.

Fireworks Bead Hole Brush

This Bead Hole Cleaner is coated with the finest diamond abrasive for a more effective and efficient removal of bead release residue. To use, simply push the narrow diamond coated rod back and forth through the hole in your bead.

Stock Number: 20FW724
Each: \$4.15

BEAD MAKING SUPPLIES

HotLine Air Dri Bead Release 8 oz.

Ideal for pre-coating and air drying steel mandrels. Ready to use as needed.

Stock Number: 25HOT26
Each: \$7.95

HotLine Pink Slipper Bead Release 7 oz.

Release and lube for steel mandrels. Coats with one dip. Has enough cover to hold a large bead while being manipulated. Releases cleanly. Dip it and go is recommended.

Stock Number: 25HOT24
Each: \$10.20

Fireworks Bead Release 8 oz.

Powdered releasing agent that is mixed with water to a creamy, thick consistency. Used to coat the ends of your mandrels to prevent glass beads from sticking. Can be flame or air dried.

Stock Number: 25FW731
Each: \$10.50

HotLine Fusers Glue 4 oz.

For holding glass layers, stringers and fractures in place while assembling for fusing. Also for frit casting on vertical walls. Will not leave carbon spot residue.

Stock Number: 25HOT27
Each: \$6.70

BEAD MAKING TOOLS

With many bead making tools and supplies to choose from, we're sure to have just the type for your next bead project. Select from any of the bead making tools and supplies below.

Fireworks Beginner Bead Making Kit

Interested in bead making, but didn't know where to start? With this kit and a little practice, you'll be making your own unique glass beads in no time. The kit includes step-by-step instructions, a Fireworks self-igniting torch head, 10 mandrels, dual sided marver plate, rod scrubber, heat resistant work surface (14" X 17"), bottle holder, bead release, 15 Italian glass rods and one fiber blanket to cool the beads.

Stock Number: 20FW632
Each: \$114.95

Annealing Blanket

Used to cool hot pieces from the torch. Cools projects slowly, allowing glass to be less brittle. 2 Pieces 6" X 12"

Stock Number: 20FHOT45
Each: \$9.45

1/16" Stainless Steel Mandrels

Keeps your fingers cool while working. The high heat from the flame does not transfer to your hands. 12" long 10 pieces per package.

Stock Number: 20HOT7
Each: \$8.95

Pin Vise

An inexpensive handle to hold your mandrels. Keeps your fingers cool.

Stock Number: 20HOT8
Each: \$3.00

Spatula Set

4 Stainless steel manipulators 8 different shapes. Excellent for adding detail and texture to your beads. Shapes may vary.

Stock Number: 20HOT23
Each: \$6.95

Fireworks Torch Head

An excellent choice for bead makers of any skill level, from beginners to more experienced lamp workers. This unique torch has a self-igniting system for easy use and a special regulator dial at the base of the nozzle that allows you to adjust the airflow. This control will let you change your temperature to make sure that you get true, clear colors for vibrant beads!

Stock Number: 20FW701
Each: \$49.95

Fireworks Mandrels and Bead Rake Set

Stainless steel mandrels have a low heat transfer, keeping your fingers cool while working in direct open flame. Bead rake manipulates molten glass by dragging, raking, feathering or swirling the surface. Use to make air bubbles or holes. Bent tip for comfort grip.

Stock Number: 20FW703
Each: \$9.40

3/32" Stainless Steel Mandrels

Keeps your fingers cool while working. The high heat from the flame does not transfer to your hands. 12" long 10 pieces per package.

Stock Number: 20HOT6
Each: \$11.75

Bead Rake

Manipulates molten glass by dragging, raking, feathering or swirling the surface. Bent tip for comfort grip.

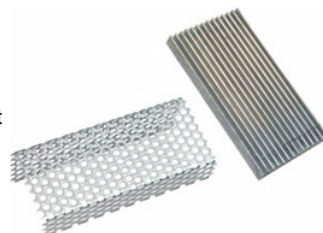

Stock Number: 20FW726
Each: \$4.75

Fireworks Shaping Marver Set

Roll or press your glass into these 2" x 4" metal surfaces help you texture your beads. Get imaginative by rolling your beads across the surfaces at different angles!

Stock Number: 20FW708
Each: \$12.55

Fireworks Parallel Bead Press

To make flat beads place molten bead between the paddles and squeeze. Adjustable press height for a wide range of bead thickness.

Stock Number: 20FW711
Each: \$19.95

Fireworks Stainless Steel Tool Rest

V-shaped design allows you to safely rest hot mandrels, glass and tools on your work surface for easy access. 7 1/2" X 1 1/2"

Stock Number: 20FW723
Each: \$7.30

Fireworks Bottle Holder

Clamps to the edge of table to securely hold Mapp or Propane bottles without slipping. Includes clamp, L-bracket and holder.

Stock Number: 20FW704
Each: \$10.50

Hot Glass Shear Set (Set of 2)

These are used to cut off excess glass, reshape your bead, or cut the trailing edge of a molten glass rod. This set includes a pair of 5" shears and 6" shears.

Stock Number: 20HOT3
Each: \$13.95

Fireworks Graphite Paddle

Use paddle to shape molten glass. The extra long handle is designed to allow for a strong but comfortable grip. Graphite is lightweight and will not stick to hot glass. Paddle measures 2 x 3.

Stock Number: 20FW725
Each: \$12.55

BEAD MAKING TWEEZERS

12" Straight Tweezer

Stock Number: 20HOT11
Each: \$5.00

**Fireworks Tweezer Set**

Use to finish pieces in wire wrapping, or for a secure grip on warm glass.

Stock Number: 20FW707
Each: \$16.75

EYE PROTECTION

Don't even think about bead making without proper eye protection. Remember, eye balls aren't cheap. Proper eye protection is a sound investment.

Hot Glass Safety Glasses Model 900 (Large)

Having a larger frame to fit over prescription glasses, these advanced version rose didymium glasses are recommended as eye protection for lamp-work using hot had torches and MAPP gas, or propane torches with soft glass. Also for periodically viewing kilns, acetylene torch work on silver and gold jewelry, enameling of jewelry and operations requiring occasional viewing of heat sources in excess of 1,000F. Comes with side shields. The comfortable fit has been a safety industry standard for years. Not for use with high-pressure torches on hard materials where very high temperatures are generated or for sun protection.

Stock Number: 20SG900
Each: \$59.95

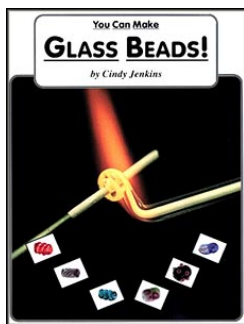

GLASS BEAD MAKING BOOKS

With several bead making books to choose from, we're sure to have just the right information for your next bead project. Select from any of the bead making books and videos below.

You Can Make Glass Beads - Jenkins

With this book and a few hours of practice, you can be making uniquely beautiful glass beads of our own design. Information on tools, and illustrated step-by step instructions for making a basic glass bead. Safety guidelines, introduction to special effects and a trouble shooting guide.

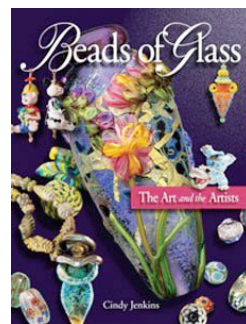

Stock Number: 60933
Each: \$12.35

Beads Of Glass - Jenkins

We're sure this collection will inspire budding bead makers as well as professional bead makers. This book full of color photography that shows the works of bead makers from all over the world. Included are great step-by-step tips on many basic and intricate techniques: you can learn how to paint on beads, create a twisted bead, stencil powders, and control your dot placement, to name a few.

Stock Number: 60934
Each: \$31.95

RODS - COE 96

Cherry Red Semi Opal Rod - COE 96

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-1511-96E
Each: \$2.53

**Yellow Semi-Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-1611-96E
Each: \$2.53

**White Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-200-96E
Each: \$2.53

**Almond Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-2107-96E
Each: \$2.53

**Dark Green Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-2206-96E
Each: \$2.53

**Cobalt Blue Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-2306-96E
Each: \$2.53

**Mauve Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-2402-96E
Each: \$2.53

**Yellow Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-2602-96E
Each: \$2.53

**Orange Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-2702-96E
Each: \$2.53

**Champagne Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-2911-96E
Each: \$2.53

**Marigold Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-355-96E
Each: \$2.53

**Pale Amber Transparent Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-1102-96E
Each: \$2.36

**Medium Amber Transparent Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-1108-96E
Each: \$2.36

**Dark Green Transparent Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-125-96E
Each: \$2.36

**Dark Blue Transparent Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-136-96E
Each: \$2.36

**Neon Orchid Transparent Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-476-96E
Each: \$7.13

**Moss Green Transparent Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-5262-96E
Each: \$2.36

Deep Aqua Transparent Rod - COE 96

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-5333-96E
Each: \$2.36

Grape Transparent Rod - COE 96

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-5432-96E
Each: \$2.36

Sky Blue Transparent Rod - COE 96

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-5331-96E
Each: \$2.36

Navy Blue Transparent Rod - COE 96

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-5386-96E
Each: \$2.36

ACTION BEVEL CLUSTERS

We are proud to introduce the Action Bevel line of clusters. These clusters are manufactured on 3/16" clear float glass with a 1/2" bevel. Each cluster comes packaged with a pattern for easy assembly.

FLO-100 Bevel Cluster

4-1/2" X 6-1/2"

Stock Number: FLO-100
Each: \$23.95

**FLO-101 Bevel Cluster**

5" X 3"

Stock Number: FLO-101
Each: \$11.95

**FLO-102 Bevel Cluster**

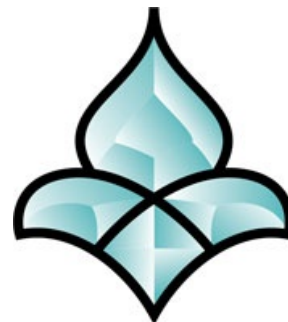

4" X 7"

Stock Number: FLO-102
Each: \$16.95

**FLO-103 Bevel Cluster**

4" X 4-1/2"

Stock Number: FLO-103
Each: \$9.95

**FLO-104 Bevel Cluster**

4-1/2" x 6"

Stock Number: FLO-104
Each: \$13.95

**FLO-105 Bevel Cluster**

4-1/2" x 9"

Stock Number: FLO-105
Each: \$15.95

**FLO-106 Bevel Cluster**

5-1/4" x 8-1/4"

Stock Number: FLO-106
Each: \$18.95

**FLO-107 Bevel Cluster**

5" x 8-1/4"

Stock Number: FLO-107
Each: \$20.95

**FLO-108 Bevel Cluster**

4" x 8-1/2"

Stock Number: FLO-108
Each: \$20.95

**FLO-109 Bevel Cluster**

6-1/2" x 6-1/2"

Stock Number: FLO-109
Each: \$16.95

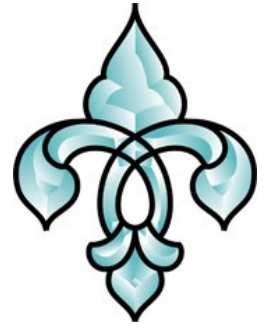

FLO-110 Bevel Cluster

7-1/4" x 9-3/4"

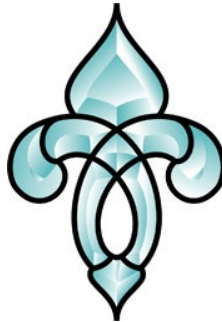

Stock Number: FLO-110
Each: \$24.95

FLO-111 Bevel Cluster

6-1/2" x 8-1/2"

Stock Number: FLO-111
Each: \$26.95

FLO-112 Bevel Cluster

6" x 8"

Stock Number: FLO-112
Each: \$23.95

FLO-113 Bevel Cluster

10-1/2" x 6-1/2"

Stock Number: FLO-113
Each: \$25.95

FLO-114 Bevel Cluster

5-3/4" X 8-1/4"

Stock Number: FLO-114
Each: \$30.95

FLO-115 Bevel Cluster

4-1/2" X 9-1/2"

Stock Number: FLO-115
Each: \$19.95

FLO-116 Bevel Cluster

4-1/4" X 8-3/4"

Stock Number: FLO-116
Each: \$22.95

FLO-200 Bevel Cluster

6" X 12"

Stock Number: FLO-200
Each: \$31.95

FLO-201 Bevel Cluster

5" X 10"

Stock Number: FLO-201
Each: \$34.95

FLO-202 Bevel Cluster

8" X 11-1/2"

Stock Number: FLO-202
Each: \$41.95

FLO-203 Bevel Cluster

7" X 10-1/4"

Stock Number: FLO-203
Each: \$53.95

FLO-301 Bevel Cluster

10" X 14"

Stock Number: FLO-301
Each: \$58.95

FLO-400 Bevel Cluster

8-3/4" X 16"

Stock Number: FLO-400
Each: \$74.95

FLO-401 Bevel Cluster

10-1/4" X 18"

Stock Number: FLO-401
Each: \$92.95

FLO-402 Bevel Cluster

9" X 18-1/2"

Stock Number: FLO-402
Each: \$87.95

FLO-403 Bevel Cluster

12" X 20-1/2"

Stock Number: FLO-403
Each: \$77.95

FLO-404 Bevel Cluster

8-1/4" X 16-1/2"

Stock Number: FLO-404
Each: \$79.95

FLO-405 Bevel Cluster

13-1/4" X 18-1/4"

Stock Number: FLO-405
Each: \$72.95

FLO-500 Bevel Cluster

16-1/2" X 25"

Stock Number: FLO-500
Each: \$160.95

FLO-502 Bevel Cluster

12" X 30"

Stock Number: FLO-502
Each: \$139.95

FLO-503 Bevel Cluster

8-1/2" X 31"

Stock Number: FLO-503
Each: \$68.95

FLO-504 Bevel Cluster

18-3/4" X 21-1/4"

Stock Number: FLO-504
Each: \$153.95

FLO-601 Bevel Cluster

15-1/2" X 39"

Stock Number: FLO-601
Each: \$167.95

FLO-602 Bevel Cluster

13" X 45-1/2"

Stock Number: FLO-602
Each: \$282.95

SHA-100 Bevel Cluster

2-1/2" X 2-1/4"

Stock Number: SHA-100
Each: \$8.95

SHA-101 Bevel Cluster

3" X 2-3/4"

Stock Number: SHA-101
Each: \$11.50

SHA-102 Bevel Cluster

3-3/4" X 3-1/2"

Stock Number: SHA-102
Each: \$14.50

ACTION BEVEL CORNER & BORDER CLUSTERS

We are proud to introduce the Action Bevel line of clusters. These clusters are manufactured on 3/16" clear float glass with a 1/2" bevel. Each cluster comes packaged with a pattern for easy assembly.

BOR-100 Bevel Corner Cluster

10" X 3"

Stock Number: BOR-100
Each: \$19.95

COR-102 Bevel Corner Cluster

13" X 13"

Stock Number: COR-102
Each: \$38.95

COR-108 Bevel Corner Cluster

10-1/2" X 10-1/2" Round jewel are not included.

Stock Number: COR-108
Each: \$28.95

COR-112 Bevel Corner Cluster

17" X 11"

Stock Number: COR-112
Each: \$62.95

COR-101 Bevel Corner Cluster

3" X 9-1/2"

Stock Number: COR-101
Each: \$13.95

COR-103 Bevel Corner Cluster

9-1/2" X 9-1/2" Round jewels are not included.

Stock Number: COR-103
Each: \$43.95

COR-111 Bevel Corner Cluster

8" X 8"

Stock Number: COR-111
Each: \$32.95

CORNER BEVELS

With many glass bevels to choose from, we're sure to have just the right bevel for your next stained glass project. Select from any of the bevels below.

Bevels are 3/16" thick clear glass with a 1/2" bevel.

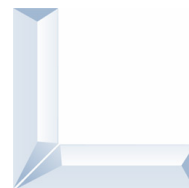

1"x4" Clear 45° Mitered Corner Set Bevel

Stock Number: 1214M Each: \$3.70

1-1/2"x4" Clear 45 Deg. Mitered Corner Set Bevel

Stock Number: 121124M Each: \$2.35

2"x4" Clear 45° Mitered Corner Set Bevel

Stock Number: 1224M Each: \$2.50

2" Clear Inside Corner Bevel for use with 1" bevels

Stock Number: 12C2 Each: \$1.30

3" Clear Inside Corner Bevel for use with 1-1/2" bevels

Stock Number: 12C3 Each: \$1.50

4" Clear Inside Corner Bevel for use with 2" bevels

Stock Number: 12C4 Each: \$2.05

DIAMOND BEVELS

With many glass bevels to choose from, we're sure to have just the right bevel for your next stained glass project. Select from any of the bevels below.

Bevels are 3/16" thick clear glass with a 1/2" bevel.

1 -1/2"x2 1/2" Clear Diamond Bevel

Stock Number: 1221525 Each: \$0.93

1-3/4"x3" Clear Diamond Bevel

Stock Number: 1221753 Each: \$0.88

2"x4" Clear Diamond Bevel

Each: \$8.95

Flat Mandrel Top Wine Bottle Stopper

Stock Number: 25AA22
Each: \$8.95

SYSTEM 96 DICHROIC - COE 96

Add interesting accents and dimension to fusing and stained glass art with dichroic glass. That's right, dichroic glass can be used in both glass disciplines. Take a look at the fish- they have dichroic accents! This picture is a detail of an entryway commissioned for an avid fisherman. Arguably, it is the dichroic glass portraying the glimmering fish that really makes this panel sing.

Take a look at other dichroic art glass in our Showcase (<http://www.alpineglass.com/search/art?keywords=dichroic>).

Using Dichroic glass with a torch in bead making (<http://www.glasspalette.com/BeadVideo.html>).

Dichroic Glass Explained: Dichroic glass is quite unique from other glass, because it can have multiple colors and can look quite different at times. With Dichroic glass the "Transmitted Color" is the color you will see in a transparent piece of glass when you can actually look through the glass. The "Reflected Color" is what you can see in a transparent or opaque piece of glass when the light bounces off of the surface.

Most sheets of dichroic glass are listed with their colors in a specific order: for example "Blue/Gold" would appear Blue in transmission and Gold in reflected color. If a black or opaque sheet is coated with "Blue/Gold", you will only be able to see its reflection color of gold. Please note that while we make every effort to provide accurate color images the actual colors may vary somewhat due to manufacturing tolerances.

11x16 Medium Sheet \$38.61
15x24 Large Sheet \$77.37

SYSTEM 96 IRIDESCENT

Black Hi-Fire Iridescent Glass - COE 96

Make any System 96 glass iridescent by fusing this Hi-Fire iridescent with another sheet. If you fuse the glass with the iridescent side up it will have a glossy finish and if you have the iridescent side down it will have a matte finish. Unlike other iridescents, you can fire this super smooth glass as hot as you want and as many times as you want without burning off the iridescence! Other iridescent glass will devitrify, becoming dull and rough at such high temperatures. This just might be the best black iridescent ever!

Stock Number: SI-1009SF

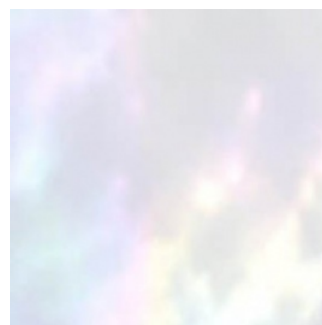

8x12 Mini Sheet \$8.76
12x16 Medium Sheet \$17.34
16x24 Large Sheet \$33.65

SYSTEM 96 OPAL ART

OpalArt is the first multi-colored glass in the System 96 family, and an extraordinary product in its own right. Its broad, dramatic color swirls are unlike any other glass launch a whole new wave of design possibility. The variegation in an OpalArt sheet rests on top of the base glass surface in the form of a thin layer of intense color. These thin swirls of topside color are light permeable, and bubbles trapped between project layers can present as antique-like surface mottling.

SYSTEM 96 GLASS PACKS - COE 96

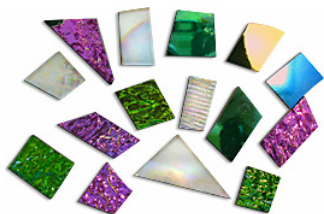

Now you can enjoy System 96 glass in a variety of ways, from Spectrums all-in-one System 96 Pack to our own grab bags and glass packs. Our glass packs are our standard size mini sheets, not half size sheets, random sizes or Transitional Glass. All are great values.

No Box Charge for glass packs.

Dichroic Grab Bag - COE 96

Great for bringing some inspiration into those new project ideas of yours.

Stock Number:
DGSGRABBAG96
Each: \$20.70

Spectrum Cathedral Fusible Glass Pack - COE 96

This pack contains ten sheets of Spectrum System 96 fusible glass. Sheet size is approximately 8" X 12". Due to popular demand substitutions may be necessary. Any substitutions will be of equal or greater value.

Stock Number: SCFGP-96
Each: \$63.19

Spectrum Opaque Glass Pack - COE 96

This pack contains ten sheets of Spectrum System 96 fusible glass. Sheet size is approximately 8" X 12". Due to popular demand substitutions may be necessary. Any substitutions will be of equal or greater value.

Stock Number: SOFGP-96
Each: \$78.14

Fusible Scrap Pack COE 96

Great for small projects or for those of you that are new to fusing. One pound of assorted System 96 Glass. Every pack is different.

Stock Number: FSP
Each: \$6.84

SYSTEM 96 NOODLES - COE 96

Noodles are approximately 5mm wide, 1mm thick and 17.5 inches long. Very similar to a fettucini noodle in appearance, but not in taste, this new shape can be used to create wonderful new imagery in your glass artwork. They can be pre-formed using candles or torches, used in bead-making, stacked with stringers and fused to create murrini, overlapped, woven and tack-fused to create glass baskets and more! Due to the delicate nature of noodles, some breakage is possible during shipping.

Clear Noodles System 96 - COE 96

Each 17" tube contains 5 ounces or approximately 20 noodles (varies by weight).

Stock Number: UN-00-96-5
Each: \$14.95

Medium Amber Noodles System 96 - COE 96

Each 17" tube contains 5 ounces or approximately 20 noodles (varies by weight).

SYSTEM 96 STRINGERS - COE 96

Stringers are approximately 1mm in diameter x 17.5 inches long. They can be pre-formed using candles or torches, used in bead-making, stacked with noodles and fused to create murrini, overlapped, woven and tack-fused to create glass baskets and more.

When using stringer glass make sure to fire it texture-side down. If you fire it texture-side up, it can lose its pattern and become muddy looking.

Due to the delicate nature of stringers, some breakage is possible during shipping.

Clear Stringers System 96 - COE 96

Each 17" tube contains 5 ounces or approximately 90 to 100 stringers (varies by weight).

Stock Number: US-00-96-5
Each: \$14.95

Dark Green Stringers System 96 - COE 96

Each 17" tube contains 5 ounces or approximately 90 to 100 stringers (varies by weight).

Stock Number: US-125-96-5
Each: \$14.95

White Opal Stringers System 96 - COE 96

Each 17" tube contains 5 ounces or approximately 90 to 100 stringers (varies by weight).

Stock Number: US-200-96-5
Each: \$14.95

Yellow Opal Stringers System 96 - COE 96

Each 17" tube contains 5 ounces or approximately 90 to 100 stringers (varies by weight).

Stock Number: US-2602-96-5
Each: \$14.95

Mardi Gras Stringers System 96 - COE 96

Each 17" tube contains 5 ounces or approximately 90 to 100 stringers (varies by weight).

Stock Number: US-M-96-5
Each: \$14.95

Medium Amber Stringers System 96 - COE 96

Each 17" tube contains 5 ounces or approximately 90 to 100 stringers (varies by weight).

Stock Number: US-1108-96-5
Each: \$14.95

Dark Blue Stringers System 96 - COE 96

Each 17" tube contains 5 ounces or approximately 90 to 100 stringers (varies by weight).

Stock Number: US-136-96-5
Each: \$14.95

Red Opal Stringers System 96 - COE 96

Each 17" tube contains 5 ounces or approximately 90 to 100 stringers (varies by weight).

Stock Number: US-2502-96-5
Each: \$14.95

Black Stringers System 96 - COE 96

Each 17" tube contains 5 ounces or approximately 90 to 100 stringers (varies by weight).

Stock Number: US-56-96-5
Each: \$14.95

FUSING ADHESIVES

HotLine Fusers Glue 4 oz.

For holding glass layers, stringers and fractures in place while assembling for fusing. Also for frit casting on vertical walls. Will not leave carbon spot residue.

Stock Number: 25HOT27
Each: \$6.70

**No Days Liquid Fusing Adhesive 4 oz.**

Light tack liquid adhesive designed for adding delicate accent items to your glass such as frit, leafing or foiling before firing in a kiln. Create detailed frit designs. Once cured, your frit design is securely held in place to your glass. Leaves behind no residue after firing in a kiln. No heating required for adhesive to cure.

Stock Number: NDLFA
Each: \$9.50

**GlasTac Adhesive 4 oz Applicator Bottle**

Glue for glass kiln forming. Holds pieces in place prior to firing. Slow drying allows readjustments as you work. Organic colorant lets you see where you've put it on clear glass, but burns out cleanly in the kiln. Applicator makes for easy application.

Stock Number: 258234
Each: \$6.90

**GlasTac Adhesive 32 oz Bottle**

Glue for glass kiln forming. Holds pieces in place prior to firing. Slow drying allows readjustments as you work. Organic colorant lets you see where you've put it on clear glass, but burns out cleanly in the kiln.

Stock Number: 258232
Each: \$28.95

FUSING PAINT SUPPLIES

Your next fusing project can also include painted art! Get creative with any of our high quality enamel fusing paints and supplies. Also, be sure to check out the System 96 and COE 90 fusing paints below.

Be sure to check out our Painting Books (<http://www.alpineglass.com/shop/painting-and-soldering-books/>) and view more examples (http://www.alpineglass.com/search/art?keywords=paint*) of painted art.

Designer Liner black

Make your Mark with Designer Liner. Designer Liner is clay based and heavily pigmented. Use this versatile product to create fine detail with lines, dots, and letters. The metal writer tip allows for ultimate control to draw ultra-fine or bold lines, typography and intricate illustrations. Designer Liner is best when used under non-moving transparent or semi-transparent glazes. Fires cone 06 - cone 6. Certified AP Non-toxic and Food Safe. Available in a variety of essential colors.

Stock Number: sg401
Each: \$4.25

Water Friendly Medium 4 Oz

Stock Number: 25WM4
Each: \$15.95

Water Friendly Medium 1 Oz

This unique binder holds the enamels to the glass during the painting stage of the process. Can be mixed to a variety of consistencies to fit your painting needs. An ideal binder for sifting and brush techniques like tracing, stippling, flood coating, and color wash. Add water and a couple drops of concentrate to powders to give enamels a smooth, creamy consistency. When the glass is fired the medium burns away cleanly without blistering or crazing colors. Cleans up easily because turpentine and solvents are not needed. 1 oz.

Stock Number: WATMED1
Each: \$4.75

FUSING PATTERNS

Take a close look at the panel to the right with no lead lines. It's fused art! Browse through our selection of patterns below. This panel is made from the pattern "Underwater Scene- Diver's View" by Bonnie Harrell.

Stained Glass Patterns

Our stained glass patterns may be used for fusing projects as well. Take a look (<http://www.alpineglass.com/shop/patterns/>).

Free Patterns!

Our free pattern of the month and pattern archives are available for download. Download yours (<http://www.alpineglass.com/shop/free-stained-glass-patterns/>)!

Fusible Deco Dish Free Patterns

Three unique patterns for our Deco Dish fusible molds. Includes instructions. Please Note The temperature in step 7 should be 450 degrees per hour.

Stock Number: DECODISH

Holiday Snowflake Fused Glass Ornament

We encourage you to have fun with the pattern, making many different shapes and sizes. Remember, no two snowflakes are alike so create your own fun patterns!

Stock Number: Snowflake

Holiday Diamond Ornament

A quick and easy fused pattern for the holidays. Great for using up that scrap glass that all of us have laying around the house!

Stock Number:
DIAMONDORNAMENT

FUSING SUPPLIES

Shop our fusing supplies section for your next fusing project. Some essential fusing supplies include products that help prevent devitrification and ones that add a glossy finish to fusing projects.

Hotline Fiber Mold Hardener 32 oz.

Designed to harden fiber paper mold constructions. Apply to the fiber mold with a brush and cure at 175 degrees F until surface is hard. Mold surface can be sanded to a smooth finish. Repeat the process, and the mold will be ready for firing to 1300 degrees F.

Stock Number: 25HOT55
Each: \$39.95

Liquid Stringer Medium 8 Oz.

Enjoy the freedom of being able to draw with glass. Liquid Stringer Medium is a unique gel that you can mix with powdered frits or enamels so they can be applied with a squeeze bottle or cake decorator. Anything you can draw, be it words, faces, geometric patterns or free form lines can all be made in fused glass. When mixed to the proper consistency, your lines will have the round dimensional quality of a glass stringer. Mixing thinner will allow you to float areas of color. Easy to use, this medium burns out clean when fired. Tools can be clean with water. This is a great addition to any glass artist's bag of tricks. 8 oz. bottle.

Stock Number: LICSTR
Each: \$21.95

No Days Liquid Fusing Adhesive 4 oz.

Light tack liquid adhesive designed for adding delicate accent items to your glass such as frit, leafing or foiling before firing in a kiln. Create detailed frit designs. Once cured, your frit design is securely held in place to your glass. Leaves behind no residue after firing in a kiln. No heating required for adhesive to cure.

Stock Number: NDLFA
Each: \$9.50

GlasTac Adhesive 32 oz Bottle

Glue for glass kiln forming. Holds pieces in place prior to firing. Slow drying allows readjustments as you work. Organic colorant lets you see where you've put it on clear glass, but burns out cleanly in the kiln.

Stock Number: 258232
Each: \$28.95

Liquid Stringer Medium Squeeze Bottles 2 oz.

These 2-oz. squeeze bottles are the perfect tool to use when applying a mixture of frit and Liquid Stringer Medium. They have a pointed tip that has been pre-drilled to a #4 diameter. Get several, one bottle for each color, because the mixture will keep and you won't have to clean out your bottles between each application.

Stock Number: SQUBOT
Each: \$2.50

HotLine Fusers Glue 4 oz.

For holding glass layers, stringers and fractures in place while assembling for fusing. Also for frit casting on vertical walls. Will not leave carbon spot residue.

Stock Number: 25HOT27
Each: \$6.70

GlasTac Adhesive 4 oz Applicator Bottle

Glue for glass kiln forming. Holds pieces in place prior to firing. Slow drying allows readjustments as you work. Organic colorant lets you see where you've put it on clear glass, but burns out cleanly in the kiln. Applicator makes for easy application.

Stock Number: 258234
Each: \$6.90

Back Magic 4 oz

Add shine to the backside of your fused or bent pieces with Back Magic. Spray or brush on this overglaze and fire to 975 degrees F. Because it matures well below slumping temperatures, the back side can be fired without the front side picking up any texture from the kiln shelf. This product will not eliminate textures or kiln wash but it will make most surfaces smoother with a slight gloss. NOT recommended for food bearing surfaces. 4 oz.

Stock Number: 25BMG4
Each: \$11.95

Super Spray 8 Oz.

At last, there is a very low lead overglaze that prevents devitrification on kiln fired glass projects that has been proven safe for food bearing surfaces. Super Spray will not discolor reds, oranges or other sensitive tones. For easy application, simply brush it onto your glass project or spray it on with an air brush or atomizer.

Stock Number: 25SS8
Each: \$19.95

**Earring Slices**

5 Pair/Bag

Stock Number: 25ES
Each: \$11.95

**High Fire Smooth Mold Mix 5 Pound Bag**

High Fire Smooth Mold Mix provides a smooth surface for hot glass projects such as casting and mold making. Molds will last for approximately 3 slumps or 1 casting depending upon project temperature. Mix 2 parts mix to 1 part water to a plaster like consistency. Mix slowly for an even consistency. **DO NOT USE A MECHANICAL MIXER.** This will add unwanted air bubbles. Dry slowly, not in direct sunlight, for about 5 days depending upon humidity or temperature. For a quicker and more dependable drying time, dry in an oven at 400 degrees F for two hours and let it cool for two hours.

Stock Number: 25HFMM
Each: \$9.95

FUSING TOOLS

Fusing glass is a very hands-on art form and we've got the tools for the job. Our essential fusing tools are listed below.

Kiln Gloves Small

Perfect size for the ladies or people with small hands, these heavily insulated and easy to use gloves are perfect for your hot glass work. Premium cowhide combined with a unique cotton/foam lining offers superior heat insulation.

Stock Number: 20KGS
Each: \$15.95

Kiln Gloves Large

These heavily insulated and easy to use gloves are perfect for your hot glass work. Premium cowhide combined with a unique cotton/foam lining offers superior heat insulation. One size fits all. Regular Price \$19.95.

Stock Number: 20KG
Each: \$17.95

Carving Set

The perfect tool set for carving your own custom slumping molds. Contains 12 different stainless steel tools, 24 different shapes.

Stock Number: 20HOT54
Each: \$12.95

Wire Wrapping Pliers Kit

Use this complete wiring kit to make perfect loops for watch toggles, springs and more. Kit includes pliers for three wire wrapping techniques, and one for cutting, all in a blue zippered pouch. Made with the highest quality of steel for durability.

Stock Number: 20WWPK
Each: \$34.95

Hot Glass Safety Glasses Model 900 (Large)

Having a larger frame to fit over prescription glasses, these advanced version rose didymium glasses are recommended as eye protection for lamp-work using hot had torches and MAPP gas, or propane torches with soft glass. Also for periodically viewing kilns, acetylene torch work on silver and gold jewelry, enameling of jewelry and operations requiring occasional viewing of heat sources in excess of 1,000F. Comes with side shields. The comfortable fit has been a safety industry standard for years. Not for use with high-pressure torches on hard materials where very high temperatures are generated or for sun protection.

Stock Number: 20SG900
Each: \$59.95

Hake Brush 2-1/2"

Long soft bristles are the reason that this brush is the popular choice of kiln workers worldwide. The Hake Brush is used to apply kiln wash to kiln shelves and ceramic molds with a minimum of brush strokes. Not recommended for stainless steel molds.

Stock Number: 20JHB
Each: \$6.95

GLASS KILNS

Take your fusing art to the next level with any one of our Skutt Kilns! Fusing has never been easier or more fun with these computer controlled hotglass kilns. Some are even pre-programmed to make it super easy for fusers just getting started. Our fusing artists have gathered these resources for you to learn more about hot glass kilns and the art of glass fusing.

Order Information

Kilns are non-stock items ordered just for you. There are no cancellations once the order is placed and kilns are **NON-RETURNABLE**.

Your credit card will not be billed until your kiln is shipped. About our Fusing Classes (

Skutt Kiln - Fire Box 14 with Accessory Kit

The perfect kiln for fusing glass tiles. The square chamber holds 1 full square foot of 4" x 4" tile. Solid State relays for added safety and durability. • The 3 button controller has programming features for the beginner and the advanced artist. • Standard Household Voltage 20 Amp Circuit Recommended • Reliable Solid State Relay • Top Fired • 14-1/2" X 6-1/2" Firing Chamber • Its compact size makes it perfect for the fuser on the move. • The wood handle stays cool making it easy to sneak a peak when the kiln gets to temperature. The accessory kit includes: • 13" X 14" Shelf • Three 1" Posts • 13.5" x 41" ThinFire fiber paper • 8 oz. Kiln Wash And get this- the price includes shipping, handling and insurance to any of the 48 contiguous states! Built to last and backed with a 2-year parts & labor warranty.

Stock Number: 20FIREBOX14

Each: \$1,106.00

Skutt Kiln - Octagon 41-1/2" X 24-1/2" with View Window

The Skutt GM1414 is the perfect kiln for the serious artist. The top and side firing elements make this unit fire very evenly and allow for glass projects to heat at a uniform rate. With a 41" x 24-1/2" x 13-1/2" chamber this kiln is much larger and taller than other top firing kilns allowing for tall slumping and drop mold projects. Standard equipment includes the GlassMaster Controller which gives you the precision and versatility needed for complicated firing projects, 8" stand and view window.

Stock Number: 20GM1414

Each: \$2,650.00

Skutt Kiln - Octagon 23-1/2" X 13-1/2"

The top and side firing elements on this kiln make this unit fire very evenly and allow for glass projects to heat at a uniform rate. With a 13.5" chamber height this kiln is much taller than other top firing kilns allowing for tall slumping and drop mold projects. It is equipped standard with the GlassMaster Controller which gives you the precision and versatility needed for complicated firing projects. It features a 23.5" opening, 8" stand, porcelain peep plugs and easily fits a 20" shelf.

Stock Number: 20GM1014

Each: \$1,825.00

Skutt HotStart Pro Kiln with Accessory Kit

Free shipping for this kiln! The new HotStart Pro gives you the ability to program and save up to 5 custom programs. Each program can have up to 8 segments. The best part is that you don't have to give up a thing. The HotStart Pro is still the only kiln on the market with the convenient and easy to use GlassFire Mode. Also the HotStart Pro is currently the only kiln of its size to use high quality Solid State relays for added safety and durability. • More Memory Than Ever Before! • Now Has Ramp and Hold Programming. • 5 Storable Programs • Writes 8 Segment Programs • Adjust Programs On The Fly • And Yes It Still Has The Incredibly Popular GlassFire Mode Available Only With A Skutt Kiln. • Standard Household Voltage 20 Amp Circuit Recommended • Reliable Solid State Relay • Top Fired • 15" X 6-1/2" Firing Chamber The accessory kit includes: • 13" Shelf • Three 1" Posts • 13.5" x 41" ThinFire fiber paper • 8 oz. Kiln Wash And get this- the price includes shipping, handling and insurance to any of the 48 contiguous states! It's UL and ULC approved to 1650F. Built to last and backed with a 2-year parts and labor warranty.

Stock Number: HOTSTART

Each: \$990.00

Skutt Kiln - Octagon 41-1/2" X 24-1/2" with Lid Lifter and View Window

Skutt now offers The GM1414 with a spring assisted lid lifter. The lid braces have been redesigned with a unique cam system to prevent catching. The 3 position lid prop has 2 venting positions and a lock position. The spring assist not only helps to lift the extremely heavy GM1414 lid, it also puts less stress on the lid so it will last longer.

Stock Number: 20GM1414LL

Each: \$2,970.00

KILN POSTS

These posts are used to support both your kiln molds and kiln shelves in your hot glass kiln.

Stock Number: 20KS6 Each: \$37.00

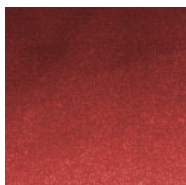

MICA POWDER

Mica powder can add color, sparkle, depth and interest to your fused glass. To apply just sprinkle on and fuse between two layers of glass. If you are applying only a fine layer, you can skip the clear glass overlay. For more precise designs mica powder can be mixed with Water Friendly Medium and painted or silk screened just like enamel. These colors hold up to 1400F.

Mica powder is compatible with any glass including inexpensive window glass.

Scalloped Shell Clay Mold - 4" x 4-1/4"

Stock Number: 25BD21
Each: \$5.49

MOLDS - STAINLESS STEEL

Our high quality stainless steel molds are ideal because of they heat up quickly and don't retain heat during the annealing cycle- very handy! With many fusing stainless steel molds to choose from, we're sure to have just the right steel mold for your next hot glass project. Select from any of the fusing stainless steel molds below.

Our "Hand Spun" stainless steel mold series is guaranteed for 1,000 firings. It is not surprising then that most commercial benders prefer Stainless Steel Molds. All of our steel molds are designed to produce multiple shapes. Most will accommodate bending glass both over or into the form, with the exception of Floral Former and Short Former, which are designed for bending over only. Pre-drilled vent holes are provided where necessary and basic instructions are included.

Floral Former Stainless Steel Mold - 7" X 3"

The Floral Former is one of the most exciting and versatile molds around. It is one of the few molds that can be used to achieve numerous shapes. The fluting or 'drapery effect' is quite pronounced because the lip of the glass can fall quite a distance. 7" X 3"

Stock Number: FLOFOR
Each: \$24.95

Short Former Stainless Steel Mold - 4-3/4" X 3-1/4"

Stock Number: SHOFOR
Each: \$16.95

Bowl Stainless Steel Mold - 7" Diameter

Fusing Images on Glass - Banhazi

For the first time, home hobbyists, professional studios, schools and artists can easily, safely and inexpensively fire high quality photographs, graphics and text onto their fused glass projects.Â Â Learn methods for adding color and more. Project ideas will inspire fresh uses from jewelry to heirloom dishware.Â All fired images are permanent and food safe. Also included is an extensive List of Printers that work with this process as well as a Ramp and Hold Firing Chart for firing glass in a Ceramic Kiln plus instructions for firing images on glass.

Stock Number: 60FIMG
Each: \$19.95

Fusing Photo Decal Paper Pkg of 10

Easily Turn Any Picture into A Memorable Piece of Art. Customize your glass art with this high quality water-slide fusing photo paper. You can easily transfer photographs, or any pre-printed design, onto your glass art and your memories will forever be preserved in glass in a gorgeous sepia tone. Note: Will not work on Dichroic Glass. Pack contains ten 8-1/2" x 11" sheets and firing instructions. Please Note: Use only HP Black and White or HP Multifunction laser printers.

Stock Number: FPDP
Each: \$19.95

SHELF PAPER, PRIMER AND DURABOARD

Shelf Paper is a reusable all time protectant for the bottom of the kiln acting to prolong kiln brick life and reduce project cleanup. Different sizes and textures are available. This unique paper can also be cut and shaped to add dimension to glass.

Shelf primer prepares kiln furniture and molds for slumping. It helps prevent sticking to molds and leaves an extremely smooth finish to the surface of the glass art.

Duraboard 11-7/8" X 11-7/8" X1"

Can't find the exact slumping or casting mold you need. With Duraboard you can make your own individual slump, drape and casting molds. Easy to cut and shape with common hand tools your probably already have, no special tools required. With proper care, Duraboard can be used many times. Perfect for use with the Mold Block System. Please Note: Do not fire Duraboard directly on your kiln shelf shelf.

Stock Number: 25FB1
Each: \$35.95

Hotline Primo Primer

Colour de Verre ONLY recommends Hotline Primo. Fires to 1550°F and higher. It creates a very thin layer that always releases, doesn't destroy the molds fine detail, and can be easily removed after firing. 1-1/2 pound container.

Stock Number: CDVT04
Each: \$9.95

Fiber Paper Sheet - 1/8" 24" x 24" Sheet

Ceramic fiber paper can be used on a kiln shelf as a substitute for kiln wash. The paper can be used on any kiln shelf material. There is a binder material in the fiber paper that can fog the back surface of any glass, however, this fogging can be easily avoided by using a simple process to prep to fiber paper for kiln use. Prep your fiber paper by burning out the binder, firing the paper to 1,250°F or until the white color returns. The fumes from the burnout process need to be vented from both the kiln and your studio. The paper becomes quite fragile after it has been fired so handle with care. Both sides of the fiber paper may be used as long as the paper is thick enough to protect the shelf. At higher temperatures, fiber paper may add a unique texture the back side of the glass. Some consider this texturing to be a sought after effect that adds interest. If paper fiber sticks to the glass, remove it by lightly rubbing the back of the glass while holding it under running water. The water keeps you from having to breathe the fiber particles.

Stock Number: 25FP18
Each: \$14.95

Bullseye Shelf Primer, 5 lb. Bucket

This is what Bullseye uses at the factory. Each batch is kiln tested to insure consistency from run to run. Wide-lidded bucket for easy use and tidy storage. Illustrated instructions discuss application, drying, mixing, precautions and storage. It is a 5 lb. bucket.

Stock Number: BM8220
Each: \$32.20

PAPYROSÂ® Kiln Shelf Paper 20 1/2 x 20 1/2

A heat-resistant light weight ceramic impregnated paper, Thin Fire shelf paper provides excellent separation between kiln shelf and glass in kiln firing applications up to 1,600°F. Benefits, when compared to more conventional ceramic fiber materials: glossier finish on the shelf side of your finished project, less binder burnout odor, and lighter weight for easier handling and storage. Compared to kiln washes, ThinFire reduces shelf preparation time and improves surface release qualities. On firing, ThinFire disintegrates to a dusty tissue. Wear a respirator during disposal. If possible, clean shelves with a HEPA vacuum.

Stock Number: spsps
Each: \$4.25

Fiber Paper Sheet - 1/32" 24" x 24" Sheet

Ceramic fiber paper can be used on a kiln shelf as a substitute for kiln wash. The paper can be used on any kiln shelf material. There is a binder material in the fiber paper that can fog the back surface of any glass, however, this fogging can be easily avoided by using a simple process to prep to fiber paper for kiln use. Prep your fiber paper by burning out the binder, firing the paper to 1,250°F or until the white color returns. The fumes from the burnout process need to be vented from both the kiln and your studio. The paper becomes quite fragile after it has been fired so handle with care. Both sides of the fiber paper may be used as long as the paper is thick enough to protect the shelf. At higher temperatures, fiber paper may add a unique texture the back side of the glass. Some consider this texturing to be a sought after effect that adds interest. If

paper fiber sticks to the glass, remove it by lightly rubbing the back of the glass while holding it under running water. The water keeps you from having to breathe the fiber particles.

ARCHITECTURAL GLASS

Larger sheet sizes are available for pickup in our store. Please contact our sales department (<http://www.alpineglass.com/company/contact>) for more information.

HV - 182 Clear Glass

Stock Number: HV-182

8x12 Mini Sheet \$8.88
12x16 Medium Sheet \$17.38
6x24 Large Sheet \$33.71

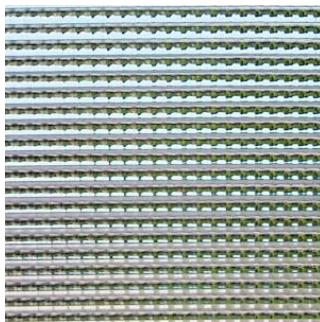

HV - 155 1/8" Micro Cross Reed Clear Glass

Made up of 1/8 squares, this 1/8" thick glass can be tempered for use in doors, sidelights or in a bathroom. This texture gives complete privacy. It can also be used in leaded glass windows or slumped into shapes in a kiln.

Stock Number: HV-155

8x12 Mini Sheet \$6.00
12x16 Medium Sheet \$11.74
16x24 Large Sheet \$22.79

HA 1/2" Cross Reed Clear Glass

Heavily textured in 1/2" squared on both sides. It is very attractive glass but can be tricky to cut. It is 3/16" thick and needs high heart lead or 1/4" foil to be used in panels. It can be slumped into many shapes in a glass kiln. This glass cannot be tempered since it is so heavily textured on both sides.

Stock Number: HA-12

8 x 12 Mini Sheet \$7.31
12 x 16 Medium Sheet \$14.31
16 x 24 Large Sheet \$27.75

HG - Bamboo (TT) Glass

Stock Number: HG-BAMBOO

8x12 Mini Sheet \$7.18
12x16 Medium Sheet \$14.05
16x24 Large Sheet \$27.26

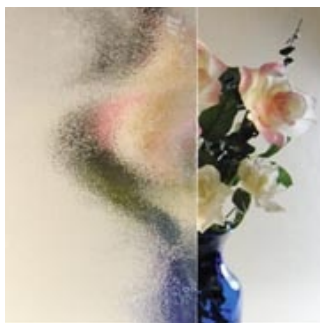

HG - Chinchilla Clear (TT) Glass

A very fine pattern resembling fur.

Stock Number:
HG-CHINCHILLA

8x12 Mini Sheet \$5.75
12x16 Medium Sheet \$11.25
16x24 Large Sheet \$21.82

HG - Niagara Clear Glass

Stock Number: HG-NIAGARA

8x12 Mini Sheet \$6.92
12x16 Medium Sheet \$13.54
16x24 Large Sheet \$26.28

HG - Delta Frost Clear (TT) Glass

An ideal glass when total privacy is important. It is 3/32 thick and can be easily cut and tempered. The background is frosted and the design raised and more clear. Uses include entryways, cabinet door inserts and accents in leaded glass panels. Because of the thickness of the glass high heart lead or 1/4" copper foil must be used. This glass can be slumped in a glass kiln.

Stock Number:
HG-DELTA Frost

8x12 Mini Sheet \$8.61
12x16 Medium Sheet \$16.86
16x24 Large Sheet \$32.71

HP - Everglade Clear (TT) Glass

A very obscure glass with a frosted background and a raised clear design that is almost a treble clef appearance. This glass is 3/32" thick. Used in entryways as it is easily cut and tempered and gives a lot of privacy. It can be made into nice bowls and dishes in a glass kiln.

HP - Cotswald Clear Glass

Stock Number: HP-COTSWALD

8 x 12 Mini Sheet \$6.53
12 x 16 Medium Sheet \$12.78
16 x 24 Large Sheet \$24.78

Stock Number:
HP-EVERGLADE

8 x 12 Mini Sheet \$6.53
12 x 16 Medium Sheet \$12.78
16 x 24 Large Sheet \$24.78

HP - Taffeta Clear (TT) Glass

Has a texture similar to taffeta fabric. It is very obscure and is 1/8" thick. It can be tempered for use in entryways. It can also be easily cut for use in panels. It is quite attractive slumped into bowls or plates.

Stock Number: HP-TAFFETA

8 x 12 Mini Sheet \$6.53
12 x 16 Medium Sheet \$12.78
16 x 24 Large Sheet \$24.78

HV-099 1/8" Ribbed Clear Glass

Stock Number: HV-099

8x12 Mini Sheet \$6.00
12x16 Medium Sheet \$11.74
16x24 Large Sheet \$22.79

HP - Sycamore Clear (TT) Glass

A large leaf pattern with a very flat surface. It is 5/32" thick and can be easily cut and tempered. Often used in cabinet door inserts and bathroom windows. It can be slumped into bowls and plates in a glass kiln. This glass is very obscure and has a mat type finish.

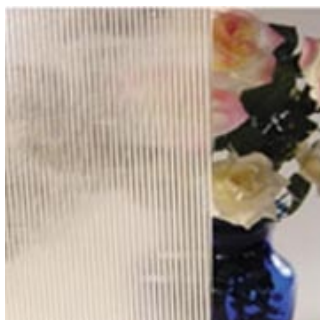

Stock Number: HP-SYCAMORE

8 x 12 Mini Sheet \$6.53
12 x 16 Medium Sheet \$12.78
16 x 24 Large Sheet \$24.78

HA - N 1/2" Straight Reed Clear Glass

Stock Number: HA-N

8x12 Mini Sheet \$4.57
12x16 Medium Sheet \$8.95
16x24 Large Sheet \$17.34

BULLSEYE GLASS

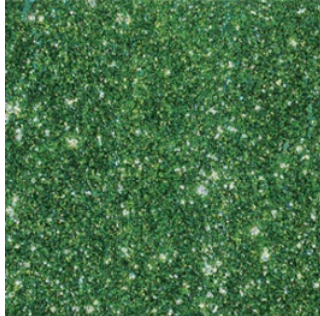

Experimentation is still the driving force behind Bullseye Glass production, with boldly vibrant glass explorations that pay homage to and surpass the best in the American glass making tradition. With equipment, techniques and glass formulae similar to those used at the turn of the century, Bullseye Glass Co. began in 1974 to reproduce the finest qualities of the early American opalescent and cathedral glasses. The single-roller method of manufacture was key in replicating the authentic look of the best Tiffany style glasses.

SPECTRUM CATHEDRAL

Cathedrals are single color glasses, with very slight, irregular surface texture. Degree of light transmission is directly related to density of color; clear glass is highly transparent, dark colors are very opaque. Dual Duty Note: Some of our Spectrum Cathedral colors are only available as System 96 (SF) products. Those serve as "Dual Duty" colors-- for both stained glass and hot glass. They are distinguishable from other Spectrum products only by their System 96 label and perform equally well in stained glass applications. Spectrum Rough Rolled Cathedral glass has a subtle, delicate texturing that gently mutes transmitted light and images.

SPECTRUM CLEAR TEXTURE

Spectrum Clear Texture glass is the personality of art glass, suggesting dimension, depth and contrast. In clear glass, texture is also useful for achieving varying degrees of privacy, while adding elegance and richness to living and working environments. Spectrum Clear Textures range from very transparent to very obscure, and offer a unique selection of character and pattern from which to choose. Spectrum Clear Texture is also a popular category when searching for the perfect glass for kitchen cabinets!

SPECTRUM OPAL-WISPY

Spectrum Wispy Opal glass is the most transparent of all the Spectrum Opals. Wispy Opal is 3/4 cathedral glass color and 1/4 opaque white glass. The white opal is hand ladled into a moving stream of cathedral color. The two glasses are then stirred together by hand, just before the sheet is formed.

SPECTRUM WATERGLASS

Spectrum Waterglass is a natural surface texture created by stretching hotglass sheet while it is still in a pliable state. The result is gentle, rolling waves that resemble the surface of a lake or stream. The stretching process also renders a highly pristine surface and a slightly narrower sheet.

Though many imitators have tried, mechanically-rolled patterns simply can not approach the subtle, delicate nature of the true waterglass texture.

COLLAGE GLASS

What if the Uroboros glassmakers were allowed to throw all of their hottest tricks into one sheet of glass? Collage Glass is the best of a Fracture/Streamer sheet but with more fractures and nests of streamers plus the added dimension of wispy/streaky colors on top. 4 seasonal colors.

Fall Collage Glass

The frost is on the pumpkin turning the colors to leaves of amber, golden yellow and flame. All of this blazing out from woody greens!

Stock Number: CG-FALL

7-1/2" x 15" Mini Sheet \$36.19
12" x 15" Medium Sheet \$57.27
15" x 24" Large Sheet \$113.14

Spring Collage Glass

Fresh, new greens, the first blush of blossom pinks seen through a veil of lacy white.

Stock Number: CG-SPRING

7-1/2" x 15" Mini Sheet \$36.19
12" x 15" Medium Sheet \$57.27
15" x 24" Large Sheet \$113.11

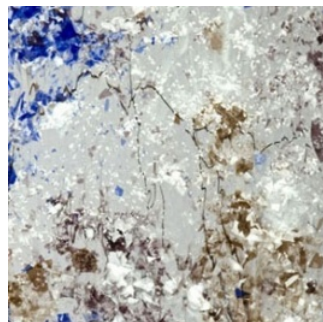

Winter Collage Glass

Icy, shadowy tones of blue, plum, taupe, black and white. Brrrrrr

Stock Number: CG-WINTER

7-1/2" X 15" Mini Sheet \$36.19
12" X 15" Medium Sheet \$57.27
15" X 24" Large Sheet \$113.14

Summer Collage Glass

A riot of colors: yellow, orange, purple and blue in a hazy swirl of summer colors.

Stock Number: CG-SUMMER

7-1/2" X 15" Mini Sheet \$36.19
12" X 15" Medium Sheet \$57.27
15" X 24" Large Sheet \$113.14

JEWELS - OVAL FACETED

These jewels are handmade in Europe. In the manufacture of these jewels, glass rods are placed in a furnace. As they become soft on the end, one is withdrawn and squeezed in a special set of pliers, the head of which has the shape of the jewel to be formed. The jewel is then hand polished and the bottom is ground flat. 18mm x 25mm = 6/8" X 1" 30mm x 40mm = 1-1/4" X 1-5/8"

MOSAIC COLORANT

Sometimes, to create the perfect mosaic you are going to need a special colored cement or grout. Mosaic Colorant is your answer. Add small amounts into your DiamondCrete, grout, or Mosaic Stone Mix until you get the color intensity that you want. This is a concentrated powder, so a 3 oz bottle will go a long way.

Mosaic Colorant, Terra Cotta 3 Oz Bottle

Stock Number: 25MSCTC Each: \$4.50

**Mosaic Colorant, Green 3 Oz Bottle**

1/16" x 12" inside tube.

Stock Number: 251057
Each: \$0.30

Self Adhesive Felt Sheet 12"x12"

Solid green sheet. For box bottom cushions and other uses.

Stock Number: 25SAGF
Each: \$5.50

Bump-Ons Clear Card of 28

Clear self sticking, protective bumper for box bottoms.

Stock Number: 2510171
Each: \$4.00

KALEIDOSCOPES

Kaleidoscope Kit

Complete kit offers all patterns, instructions, and hardware necessary to make a 10" long kaleidoscope with 2 - 6" color wheels. The hardware packet includes an axle assembly with brass fittings, set of brass legs and felt foot pads.

Stock Number: 25251
Each: \$19.95

**Kaleidoscope Axle Pack**

Used to mount stained glass wheels to your kaleidoscope. Use with IMAGE WHEEL, IMAGE RING and IMAGE DISK. Solder or glue axle into scope. Includes a 1/8" X 3" solid brass axle with threaded end, a polished brass ball nut and four wheel mounting eyelets.

Stock Number: 252512
Each: \$7.95

**Kaleidoscope Refill**

Hardware refill only for Kaleidoscope Kit 25251

Stock Number: 252511
Each: \$9.95

**Mini Scope Kit**

Compact version of the larger kit. Includes 3 pre-cut pieces of front surface mirror, solid brass axle with threaded end, mounting eyelets, screw on brass ball, 2 eyelets for legs, felt cushion pads, 12 patterns and instructions for making "Box End Kaleidoscope" which uses glass chips inside glass box to generate images.

Stock Number: 252532
Each: \$21.95

**Mini Scope Refill**

Refill with mirror and axle assembly (no patterns or instructions) for Mini Scope Kit #252532

Stock Number: 2525321
Each: \$18.95

**Kaleidoscope Front Surface Mirror**

Used in kaleidoscopes to eliminate the ghost or double image inherent in normal second surface mirror and also provides a much brighter image. Comes in a 12"X16" sheet .048" thick.

Stock Number: 25KFSM
Each: \$61.95

**Miniscope Stand**

The Mini Scope Stand is made from solid oak and measures 2-1/2" x 6-1/2". This gallery-style stand can be used to display the Mini-Scope, or any kaleidoscope up to 1-1/2" in diameter. The kaleidoscope rests above the stand on four padded dowel pegs. Pads are included. (Kaleidoscope not included)

Stock Number: 252555
Each: \$16.95

LAMP SPIDERS & VASE CAPS

ADHESIVES

We have the stained glass supplies you're looking for. Some of our stained glass supplies include etching cream, patinas, cleaning supplies, router coolant and project display holders.

No Days HoneyDoo Glue 8 oz. Power Bond

HoneyDoo Glue PowerBond is the best high strength polyurethane bonding product on the market today. A HoneyDoo is a moisture cure adhesive designed for DIY Projects. Bonds to Wood, Metal, Stone, Glass, Fiberglass, Plastics, Concrete and Much Much More!

Stock Number: NDHD8
Each: \$12.35

Ultraviolet Lamp Replacement Bulb

Hey, what's this bulb for?! Use this replacement bulb in the UV lamp (Stock# 20PIUVL) to cure UV glue. This clear, non yellowing glue is used for gluing glass to glass and glass to metal. We confidently use the UV glue to create super strong bonds in glass sculpture.

Stock Number: 20HHUVLB
Each: \$23.95

Stick-2-It Spary Adhesive 12 oz Can

An excellent alternative to the high priced aerosol adhesives. Dries quickly, resists moisture and works well on a variety of surfaces. Bonds almost any material or fabric securely. Can be used as a temporary or permanent bond.

Stock Number: 25ST2IT
Each: \$9.25

Glue Stic

This is a great glue for sticking patterns to glass. It will wash off with water. It's acid-free, for use on paper, cardboard, photos and fabric. It dries clear and is wrinkle-free with super bonding. AP Certified nontoxic by ACMI.

Stock Number: 25GS
Each: \$0.95

Ultraviolet Lamp

A portable 5" long 4 watt UV bulb in a metal housing with a plug. Best on larger projects where you won't want to be replacing costly batteries of other UV lamps. It will cure UV glue in about 2-3 minutes.

Stock Number: 20PIUVL
Each: \$165.00

Glass Adhesive E6000 3.7 oz Tube

All purpose industrial adhesive for bonding glass to glass, glass to metal, etc. Remains flexible. Tack dry in 5 to 10 minutes. Dries clear in 24 hours.

Stock Number: 25E6000
Each: \$7.95

Double Faced Tape

Double faced. Crepe paper coated on both sides with adhesive. Bonds well to glass, metal and wood. Holds pattern pieces down. 1/2" X 36 yard roll.

Stock Number: 25DFMT
Each: \$6.65

BRACE BAR

Brace bar is designed to reinforce the structure of stained glass panels making them more durable. For example, imagine all the flexing a leaded panel sustains in a door that opens and closes throughout the day. For entryway doors, transoms, or any panel in need of reinforcement, this is a solution.

Â

The door you see to the right has two brace bars. We have highlighted them in green to give you an idea of its practical use. Without those highlights the brace bar elegantly follows the contours of the panel and visually disappears into the design.

Â

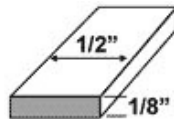

The regular shipping charges do not apply. Brace Bar is available in both cut and uncut 6 foot strips. Cut size is two 3 foot strips. 6 foot strips must to be shipped flat in an oversized box, subject to a minimum 30 pound shipping weight. Mixed case orders and cut strips are subject to a \$7.00 packing fee.

CHEMICAL SUPPLIES

Cutting Oil 4 oz

Special blend of oil for proper lubrication of all oil fed glass cutters including Toyo.

Stock Number: 25BCO
Each: \$5.15

**Novacan Cutting Oil**

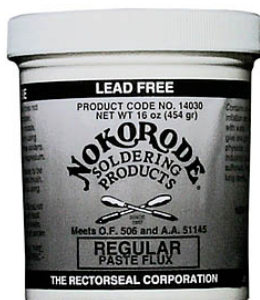

8 oz. High quality glass cutting lubricant especially formulated to give a clean cut and prolong the life of your cutter head.

Stock Number: 25NCO
Each: \$7.75

**Nokorode Paste Flux 1.7 oz.**

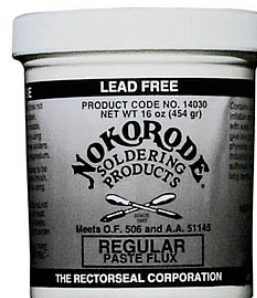

A non-liquid paste flux, works well on just about everything, brace bar, zinc, etc. Handy hint: To make clean up easier, trim the bristles of your flux brush to 3/8 of an" in length. This also extends the life of your flux brush.

Stock Number: 251046
Each: \$2.95

**Nokorode Paste Flux 1 lb.**

A non-liquid paste flux, works well on just about everything, brace bar, zinc, etc. Handy hint: To make clean up easier, trim the bristles of your flux brush to 3/8 of an" in length. This also extends the life of your flux brush.

Stock Number: 251045
Each: \$13.55

**Fry Classic 100 Gel Flux 4 oz**

A thickened liquid designed for rapid wetting and shiny solder seams when hand-soldering copper foil or copper sheet metal. Oderless, non smoking and cleans easily with water! Strong enough to solder lead and zinc. Bottle has no-leak flip top lid.

Stock Number: 2510431F
Each: \$7.00

**Glastar Glasflux 4 oz.**

All-purpose flux. Rinses off with water and is free of unpleasant fumes. Creates a uniform solder bead that stays put and does not corrode copper foil or discolor lead. Available in 4 oz . *Cannot ship by air.

Stock Number: 2510431G
Each: \$6.65

**CJ'S Flux and Patina Remover 8 oz.**

A safe environmentally friendly non-toxic cleaner that removes the greasy mess and residues from all types of flux. Prevents the unsightly oxidation on lead and solder from improper cleaning. Allows copper patina to work properly to give a bright shiny finish. Non-abrasive, non-flammable and water soluble.

Stock Number: CJFPR8
Each: \$7.50

Kwik-Clean Glass Cleaner 16 oz Spray Bottle

No need to mix or dilute. After you have completed soldering one or both sides of your project, spray on Kwik-Clean. Typically, with a paper towel clean project thoroughly. You may use the same paper towel or a clean one to apply the patina. Mixing the Kwik-Clean with the Patina gives added cleaning of the flux and a finer tone on the patina. After Patina is applied, clean again with Kwik-Clean. Polish as you normally would. Handy hint: For problem climates where White Mold is rampant. Steel wool after the first Kwik-Clean and before the Patina assures a finer clean of flux from under the foil. Then apply your patina and clean again with Kwik-Clean.

Stock Number: 25KC
Each: \$12.95

Kwik-Clean Glass Cleaner 1 Gallon

No need to mix or dilute. After you have completed soldering one or both sides of your project, spray on Kwik-Clean. Typically, with a paper towel clean project thoroughly. You may use the same paper towel or a clean one to apply the patina. Mixing the Kwik-Clean with the Patina gives added cleaning of the flux and a finer tone on the patina. After Patina is applied, clean again with Kwik-Clean. Polish as you normally would. Handy hint: For problem climates where White Mold is rampant. Steel wool after the first Kwik-Clean and before the Patina assures a finer clean of flux from under the foil. Then apply your patina and clean again with Kwik-Clean.

Microfiber Towel 16" X 16"

Tired of using paper towels, rags or your good kitchen towels to clean your stained glass projects? Then here is the answer to your cleaning needs: The high performance Microfiber Towel that attracts and holds dirt, grime, and mildew like a powerful magnet, retaining up to seven times its weight. We have switched to using it in our production department and they love it. The office girls even want one for themselves! The secret of the Microfiber Towel is a state-of-the-art matrix of polyester and polyamide weaved in such a way as to create a magnetic "clinginess" that picks up dirt like no other product available. It is a superior, chemical free, hypoallergenic textile that can be used dry for dusting and polishing, or slightly dampened with water for cleaning most any washable surface, without the aid of chemical cleansers or solvents. It is durable enough to handle the majority of your cleaning needs and at the same time is gentle enough to carefully clean scratch-sensitive surfaces. This means an environmentally safe way to clean almost anything! Pressure is not needed to clean, just let the product's own cleaning action do it's job. The product is not pre-treated with any chemicals. To clean the towel you may machine wash and dry. Do not use chlorine bleach,

fabric softener or dryer sheets.

COPPER FOIL REINFORCING

When copper foil panels get larger or are used in high stress areas like doors, you will need to reinforce your panels. These products add stiffness to long, unsupported spans and fragile constructions subject to shock, vibration, gravity or wind. You can strengthen your panels with our copper foil reinforcing supplies! They are used as an invisible structural reinforcement, inserted into lead came, or may be soldered between foiled panels. Take a look and let us know if we can answer any of your questions.

Cascade Reinforcing Strip 25'

Thin, hard copper to go between foil pieces that easily bends to sharp angles. Strip is .010" thick X 5/32" wide and 25 feet long.

Stock Number: 251047
Each: \$5.13

Cascade Reinforcing Strip 100'

Thin, hard copper to go between foil pieces that easily bends to sharp angles. Strip is .010" thick X 5/32" wide and 100 feet long.

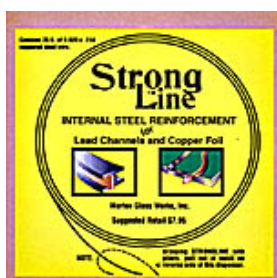

Stock Number: 2510473
Each: \$19.56

Morton Strong Line 25'

Coppered steel strip .020 thick X 5/32" wide. Works well with foil or lead. Could eliminate need for external rebar. Thicker than other foil brace.

Stock Number: 25800
Each: \$7.95

FLUX

Novacan Old Master Flux 8 oz.

A good all-purpose flux. Cleans up easily with water.

Stock Number: NOVOMF8
Each: \$4.95

Flux Bottle Holder

No more flux spilling and cleaning up. Wide bottom holds flux bottle firmly to prevent tipping over.

Stock Number: 203011
Each: \$10.95

**Nokorode Paste Flux 1.7 oz.**

A non-liquid paste flux, works well on just about everything, brace bar, zinc, etc. Handy hint: To make clean up easier, trim the bristles of your flux brush to 3/8 of an" in length. This also extends the life of your flux brush.

Stock Number: 251046
Each: \$2.95

**CJ'S Flux and Patina Remover 8 oz.**

A safe environmentally friendly non-toxic cleaner that removes the greasy mess and residues from all types of flux. Prevents the unsightly oxidation on lead and solder from improper cleaning. Allows copper patina to work properly to give a bright shiny finish. Non-abrasive, non-flammable and water soluble.

Stock Number: CJFPR8
Each: \$7.50

Flux Brush

For applying fluxes, acids, etching cream, cleaning, etc. Handy hint: Trim the bristles of your flux brush to 3/8" in length. Your brush will last longer and clean up is easier. If you use paste flux trim to 1/4".

Stock Number: 2002
Each: \$0.35

**Fry Classic 100 Gel Flux 4 oz**

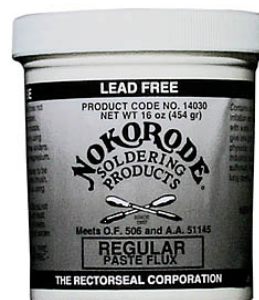

A thickened liquid designed for rapid wetting and shiny solder seams when hand-soldering copper foil or copper sheet metal. Oderless, non smoking and cleans easily with water! Strong enough to solder lead and zinc. Bottle has no-leak flip top lid.

Stock Number: 2510431F
Each: \$7.00

**Nokorode Paste Flux 1 lb.**

A non-liquid paste flux, works well on just about everything, brace bar, zinc, etc. Handy hint: To make clean up easier, trim the bristles of your flux brush to 3/8 of an" in length. This also extends the life of your flux brush.

Stock Number: 251045
Each: \$13.55

GLAZING SUPPLIES

Every stained glass panel needs to be glazed- the final and most important step in completing a lead panel. Glazing protects stained glass for years to come by strengthening and waterproofing indoor and outdoor stained glass panels. Correctly glazed panels have the added benefit of uniformly colored leading and displaying your glass art in its best light.

Glazing is the process of working cement or putty between the glass and the lead came, a necessary step even if the panel is for indoor use. Many a lead panel has failed over time simply due to improper application. Our how-to will walk you through how to glaze your panel, protecting it for years to come. Please read the manufacturers instructions carefully.

AmChem Whiting Powder 1-1/2 Pound Tub

For cleaning leaded stained glass panels.

Stock Number: 25WPS
Each: \$5.50

AmChem Whiting Powder 3 Pound Tub

For cleaning leaded stained glass panels.

Stock Number: 25WPL
Each: \$9.95

Inland Cement Black 4 lb. Bucket

Inland Cement is by far the best cement on the market today. It has tremendous strength when dry and gives your panel the finish it deserves. It is blended with a unique formula, very economical, (virtually eliminates waste) and easy to use. Instructions included.

Stock Number: 251060
Each: \$28.95

HANGERS

Suction Cups 1-3/4"

Includes a metal wrap around hook.
Will not yellow and has easy release tab.

Stock Number: 251096
Each: \$0.35

**Suction Cups 1-3/4" Box of 100**

Includes a metal wrap around hook.
Will not yellow and has easy release tab.

Stock Number: 251096B
Each: \$22.50

**Large Rings, 7/16" Package of 20**

Silver color and easy to solder.

Stock Number: 251009P
Each: \$1.50

**Small Rings, 3/8" Package of 20**

Silver color and easy to solder.

Stock Number: 251007P
Each: \$1.35

**Handy Hanger (package of 5 pair)**

Handy Hanger inserts are to be installed inside all zinc, brass or copper U Channel frames. Thus becoming an integral part of the finished project. The tab is inserted into the opening, leaving only the eye exposed. The Handy Hanger and the opening are fluxed, heat is applied with the tip of the iron causing solder to flow the length of the hanger.

Stock Number: 25HH
Each: \$12.50

PAPER AND PENS

Lumocolor Pen Medium Tip

This fiber-tip pen by Staedtler writes on all smooth surfaces like glass, overhead film and CD's. The pen has neutral smelling ink that is waterproof, smudge-proof and fast drying. Say goodbye to dried-up pens! Thanks to the DRY SAFE ink, pens can be left uncapped for days at a time without drying up. When left open during breaks in writing, they remain ready for action without delay. It's even lightfast, with writing clearly legible years later! Running low on ink? These pens are refillable! Also, when subjected to extremely heavy writing pressure, the tip remains locked in place and cannot be pushed back into the barrel. Lumocolor permanent ink takes only 3-6 seconds to dry, making it ideal for left-handed users. It is the best pen around that replaces the beloved "Stabilo".

Stock Number: 25LUMOM
Each: \$2.15

**Lumocolor Pen Fine Tip**

This fiber-tip pen by Staedtler writes on all smooth surfaces like glass, overhead film and CD's. The pen has neutral smelling ink that is waterproof, smudge-proof and fast drying. Say goodbye to dried-up pens! Thanks to the DRY SAFE ink, pens can be left uncapped for days at a time without drying up. When left open during breaks in writing, they remain ready for action without delay. It's even lightfast, with writing clearly legible years later! Running low on ink? These pens are refillable! Allows copper patina to work properly to give a bright shiny finish. Non-abrasive, non-flammable and water soluble.

Stock Number: CJFPR8
Each: \$7.50

SANDBLASTING RESIST

Sandblasting resist helps control your sandblasting to create shapes, letters, and images in glass. Apply the resist to your glass, sketch out your drawing onto the stencil, cut the stencil with a razor blade or stencil knife, and you are ready to start sandblasting! Simply peel away the resist as you sandblast to create more complex shading and shapes or leave the resist in place to create an elegant frosted look.

Buttercut Resist - 45 Mil, 12" Per Linear Foot

Buttercut is the resist of choice for sandblasting. It is a highly durable green rubber sandblasting stencil that has superior adhesion to glass when compared to other resists and has a number of benefits. Only Buttercut resist stands up to the stresses of deep glass carving. With Buttercut it's also easier to see the layout with more color contrast and depth while being easy to quickly remove once the project is complete. Here are some tips straight from our sandblasting pros that will help you get your project done right. First of all, make sure your glass surface is clean, dry and dust free. Buttercut's superior adhesion helps prevent resist failure and pattern blowout. Also, you can reduce pattern distortion by allowing the stencil to relax. After unrolling the resist and removing the liner, but before applying it to the glass, allow the stencil to relax for a few minutes.

Stock Number: 2510881
Each: \$5.85

Buttercut Resist - 45 Mil, 24" Per Linear Foot

Buttercut is the resist of choice for sandblasting. It is a highly durable green rubber sandblasting stencil that has superior adhesion to glass when compared to other resists and has a number of benefits. Only Buttercut resist stands up to the stresses of deep glass carving. With Buttercut it's also easier to see the layout with more color contrast and depth while being easy to quickly remove once the project is complete. Here are some tips straight from our sandblasting pros that will help you get your project done right. First of all, make sure your glass surface is clean, dry and dust free. Buttercut's superior adhesion helps prevent resist failure and pattern blowout. Also, you can reduce pattern distortion by allowing the stencil to relax. After unrolling the resist and removing the liner, but before applying it to the glass, allow the stencil to relax for a few minutes.

Wood handle brush used to clean came before applying flux.

Stock Number: 2006
Each: \$1.95

**Palmyra Brush**

Used to brush and clean your panel once glazing compound is dry. 2 1/4" X 7 1/4".

Stock Number: TMB003
Each: \$4.25

Luster Brush Replacement Brush

Stock Number: PZLBR
Each: \$21.95

Bench Brush

Easy to operate with no instructions included.

Stock Number: 2008
Each: \$6.95

COPPER FOIL TOOLS

Patina Buddy

Looking Patina finish on your copper foil projects? The Patina Buddy is your answer. Lightly scour your project with the Patina buddy and a neutralizing cleaner, CJ's Flux remover Stock # 25FPR or Kwik- Clean Glass Cleaner Stock # 25KC, works well for this. Dry your project and apply patina. Wash off patina residue, and apply Finishing Compound Stock # 251039.

Stock Number: 20PB
Each: \$2.95

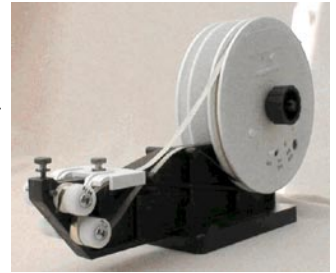

**Diegel Foiling Machine 1/8" Roller Set**

Stock Number: 20DFM1
Each: \$7.95

Diegel Foiling Machine

A more professional tool. The only foiler with an adjustable guide allows perfect centering or off centering of foil. Holds two sizes of foil at the same time. Fits 3/16", 7/32" and 1/4" foil.

Stock Number: 20DFM
Each: \$54.95

**Glastar Foiling Machine**

A remarkable time-saver, engineered to speed up and simplify copper foiling. Faster than hand foiling, you can apply foil to glass edges in half the time or less! The Glasfoiler accepts 3 sizes of foil: 3/16", 7/32" and 1/4". Can dispense 2 different sizes at the same time.

Stock Number: 2068
Each: \$34.95

**Copper Foil Dispenser**

Tired of having your supply of copper foil ending up looking like a plate of spaghetti? The Copper Foil Dispenser holds seven sizes of foil plus scissors, knife, etc. Keeps foil neat, organized and easy to use. A must for all copper enthusiasts.

Stock Number: 2014
Each: \$19.95

**Smooth Roller**

Crimper, burnisher and smoother all in one. The sharp tip separates foil from liner. Grooves crimp any size foil. Roller burnishes and smooths foil.

Stock Number: 20SR
Each: \$6.45

**Kwik-Crimp**

This durable plastic crimper makes barnishing task a breeze. After foiling the piece of glass, slightly push down the foil on all sides and 'crunch' the corners. Then slide the piece of foiled glass through the Kwik-Crimp fingers. With one swipe, the foil is strongly adhered to the sides of the glass and the foil is ready for soldering.

Stock Number: KCCRIMP
Each: \$8.95

Glastar Hand Foiler 7/32"

Hand held tool separates foil from backing and accurately centers foil on the edge of the glass. 7/32"

Stock Number: 20682
Each: \$13.95

**Glastar Hand Foiler 3/16"**

Hand held tool separates foil from backing and accurately centers foil on the edge of the glass. 3/16"

Stock Number: 20681
Each: \$13.95

**Glastar Hand Foiler 1/4"**

Hand held tool separates foil from backing and accurately centers foil on the edge of the glass. 1/4"

Stock Number: 20683
Each: \$13.95

NEED COPPER FOIL?

Why different Colored Backings?

Improves the aesthetics of copper foil on clear, non opalescent glass and mirrors.

Use Copper Foil when you intend to apply Copper Patina.

Use Silver Back Foil when no patina will be applied.

Use Black Back Foil when you intend to apply Black Patina.

2-Side Silver Foil is used for ornaments that require little or no soldering.

Copper Foil 3/16"

Need grinder stuff? You came to the right place. Check out our selection of grinder accessories. Any of which can make your grinding life easier, safer and/or less messy.

Morton Mr. Splash

Mr. Splash fits all grinders. Great for keeping work area clean.

Stock Number: MORGA02
Each: \$15.95

Mark Stay II

A must for grinding or sawing. Just apply a thin coat of Mark Stay to your cutting or grinding lines to preserve them while you work - even resists water! Contains no wax or abrasives. Nontoxic, will not dull your grinder head or saw blade. Can also be used to temporarily secure a paper pattern pieces to glass.

Stock Number: 25MS
Each: \$4.95

Inland Second Story Work Surface

This convenient platform raises surface 1-1/2" and is designed to make intricate grinding and drilling of glass more precise. Fits all grinders.

Stock Number: 2097
Each: \$15.95

Glastar Glass Eye Shield Support

Glass, furnished by the user, lifts up and out of the support for easy cleaning. Accommodates 1/8" thick glass.

Stock Number: 20GES
Each: \$12.75

Glastar Molded Eye Shield

Made of hard polycarbonates; protects eyes and face from flying glass chips.

Stock Number: 20MES
Each: \$10.95

Inland Thumb Savers

ThumbSavers easily and comfortably fit on your thumbs and lock onto the edge of the glass so you can safely guide the glass against the grinder bit.

Stock Number: 20TS
Each: \$5.95

Novacan Grinder Coolant

A small amount added to the water reservoir of your grinder will help prolong grinder bit life.

Stock Number: 251024
Each: \$6.95

Foot Switch

Tired of having to reach for the switch on your grinder? Here is the solution. A foot operated control switch. This gives you a great amount of flexibility and reduces fatigue. As a safety note: Turn off or unplug the grinder when you are finished working. This ensures that kids or critters don't accidentally turn something on.

Stock Number: 203012
Each: \$36.95

Morton Grinder Tongs

Perfect for holding those very tiny pieces that seem to destroy your finger tips while grinding.

Stock Number: 20GA04
Each: \$10.75

Gryphette Face Shield

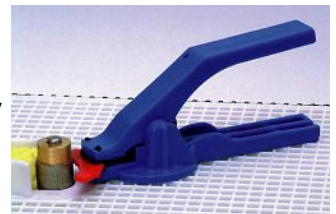

Face shield for the Gryphon Gryphette Grinder #20GG.

Stock Number: 20GRY29
Each: \$12.25

Nick's Grinder's Mate

Squeeze once! Then relax your grip, spring pressure holds that little piece of glass for grinding. Holds the glass level and slightly above the grinder top. For anyone with weak hands or nice nails this is a blessing.

Stock Number: 20NGT
Each: \$18.95

GRINDERS

Need a glass grinder? Looking to upgrade to a new or larger machine? You've come to the right place. We have a grinder for every need and skill level from the beginner to the professional. Check it out.

Gryphon Gryphette Grinder

Need a grinder and don't have much work bench space? The Gryphon Gryphette is the answer to your problem. The Gryphette offers the best value in a glass grinder today. The small enclosure houses a surprisingly powerful DC motor. Even when using 1" diamond bits, it is virtually impossible to stall the motor. • Powerful DC Motor • Standard 3/4" bit • Accepts all standard bits • Simple Design • Five year limited warranty • Outstanding Value

Stock Number: 20GG
Each: \$74.95

Glastar G-14 Diamond Star Grinder

A great grinder for the beginning hobbyist, and the perfect grinder to start the new student down the road of success. The hassle-free performance of the Diamond Star allows students to spend more time learning. It has a reliable 1/18HP, 3450RPM motor and long lasting 3/4" plated grinding head. Grinder comes with a convenient coolant drain system, flexible rubber splash guard and exclusive built-in accessory drawer.

Stock Number: 20GDS
Each: \$195.00

Glastar G-8 Allstar Grinder

A built-in water pump/mini table provides a surface to grind very small pieces of glass with a 1/4" grinding head. Extra large work surface with a commercial duty motor (motor speed 1/9 HP, 3560 RPM with a permanent split capacitor motor design, which results in smoother and quieter operation. Comes with a 8"X9" glass eye shield that is more scratch-resistant than plastic. Permanently bonded diamond grinding surface on 1" the main grinding head as well as the 1/4" grinding-drilling head. Also includes roller-type adjustable straight edge guide, convenient coolant drain and flexible rubber splash guard. 5 year, no-fault warranty.

Stock Number: 20G8
Each: \$410.00

Glastar G-12 Superstar II Grinder

The perfect grinder for the artist or hobbyist. The Super Star II is equipped with a powerful 1/12 HP, 3450 RPM motor that doesn't slow down when grinding. Combined with the permanently "bonded" diamond-grinding surface on the 3/4" main grinding head and the 1/4" grinding/drilling head, this grinder gives the glass artist what they need to create their work accurately and efficiently. The exclusive built-in accessory drawer is convenient for storage. This grinder also comes with a roller-type adjustable straight edge guide, convenient coolant drain system, and flexible rubber splash guard.

Stock Number: 20G12
Each: \$220.00

Stock Number: 201017

Each: \$14.01

Inland WB Adaptor for WB-318 & WB-314

Stock Number: 201015

Each: \$7.96

GLASS SAWS

Can you make the cut? Our top notch glass saws make short work of any glass cutting. Make complex and difficult cuts easier with any one of our glass cutting saws. With many to choose from, we're sure to have just the right glass saw for your next glass project.

Please Note: All saws are 120 volt unless otherwise stated.

Some saws may have instructional books and videos available for download. Please click the product name for more information.

Taurus 3 Ring Saw

The new Taurus 3 is the next generation of saws from Gemini. Here are just a few of its great features: 1/5 hp motor. 25% bigger worksurface. Fewer and longer lasting parts for means less maintenance and easier clean-up. Weighs only 14 pounds! The saw can snap out of the reservoir so it can be used as a portable saw. Half the noise of other models. Built-in spotlight and flip-up face shield. Three year warranty (excluding blades)

Stock Number: 20TRS3
Each: \$395.00

Gryphon Zephyr Ring Saw

The Gryphon Zephyr Diamond Ring Saw offers advantages not found in other glass saws. The round blade can cut in any direction, and operation is very smooth and quiet. The Zephyr saw has a large 17-1/2" X 17-1/2" work surface that is free of obstructions. The overhead blade support is slender, allowing the artist to have a very clear view of the material as it is cut. In addition, the Zephyr has a deeper throat and more clearance for the glass than other consumer glass saws. Special attention has been given to designing the saw for quiet operation and for low maintenance. The critical moving parts are shielded to minimize the abuse from the glass dust that is generated when cutting. The highest quality bearings and wheels are used to extend the life of these critical parts. The motor/blade assembly is a separate unit that can be removed from the base and used as a hand-held saw. This is useful for cutting items that cannot easily be brought to the table. A small water reservoir is built into the blade assembly housing and will hold enough water for a few minutes of hand-held cutting. When the saw is used in the normal configuration (installed in the base), the base will hold enough water for several hours of cutting. The Gryphon Zephyr will cut glass, tile, rock and all other similar hard materials. Now includes an extra blade and a set of inserts for the guide wheels. The Gryphon Zephyr Diamond Ring Saw offers advantages not found in other glass saws. The round blade can cut in any direction, and operation is very smooth and quiet. The Zephyr saw has a large 17-1/2" X 17-1/2" work surface that is free of obstructions. TAURUS ACCESSORIES & REPLACEMENT PARTS

Taurus 3 Ring Saw Drive Pulley

Stock Number: 20TRS3DP
Each: \$10.50

Taurus 3 Ring Saw Blade Stabilizer TU-31

The Taurus 3 Ring Saw Blade Stabilizer reduces grommet wear dramatically. It also gives you more control and stability when cutting thicker material. The Stabilizer adjusts easily to accommodate different thickness material. A Perfect when using any of the Taurus 3 blades. The Stabilizer will fit all early production Taurus 3 Ring Saws without any modifications.

Stock Number: 20TU31
Each: \$23.95

Taurus 3 Ring Saw Tension Arm

Stock Number: 20TRS3TA
Each: \$8.00

Taurus 2 Ring Saw Replacement Blade 80 Grit TU-7

Comes standard with all Taurus 2 Ring Saws. Ideal for cutting all types of material. Recommended for the beginning glass saw user. Comes three yellow groove grommets, four red gear grommets and two hole reducers.

Stock Number: 20TRSRB
Each: \$119.95

Taurus 2 Ring Saw Separating Blade TU-8

For you crazies who need to cut a shape out of the center on a piece of glass, without border cuts! Drill a hole in your glass, open up the blade, put it through the hole and cut up to an 11" hole. Comes three yellow groove grommets, four red gear grommets and two hole reducers.

Stock Number: 20TRSSRB
Each: \$82.95

Taurus 3 Ring Saw Replacement Blade 80 Grit TU-18

Comes standard with the Taurus 3 Ring Saw. Ideal for cutting all types of material. Recommended for the beginning glass saw user. Comes with two orange groove grommets.

Stock Number: 20TRSRB3
Each: \$82.95

Taurus 3 Ring Saw Slicer Blade TU-28

Thinnest curf ever for Taurus 3. The Slicer blade is ideal when removing the least amount of material is desired. This blade gives you the ability to use more of your material and as a byproduct actually cuts faster than any of our "Ring Blades". The Slicer blade is flat, giving it strength when cutting forward and backward, because of this, the cutting will only be from the front and back. Cutting from the sides will not only be very slow but will damage the grommets. Comes with two orange groove grommets.

Stock Number: 20TU28
Each: \$93.75

Taurus 3 Ring Saw Separating Blade TU-19

For you crazies who need to cut a shape out of the center on a piece of glass, without border cuts! Drill a hole in your glass, open up the blade, put it through the hole and cut up to an 11" hole. Comes with two orange groove grommets.

Stock Number: 20TRSSRB3
Each: \$82.95

Taurus 3 Ring Saw /Titan Mega Blade TU-21

For dense materials. Because of its "tear drop" shape, the Mega Blade is our strongest blade ever. This blade is used differently than our Omni-directional blades. It is cuts mainly on the front and back, so to create a curve you will guide the material around the blade. The Mega blade is so rigid that it has the ability to

damage the saw itself if used improperly by pushing too hard. So keep in mind the "golden rule" to let the saw do the cutting and do not force the material. Comes with two orange groove grommets.

Stock Number: 20TRSSMB
Each: \$93.75

Taurus Ring Saw Super Slicer TU-27

Holds pattern bars and other small items in such a way as to allow repeatable thin parallel cuts. For use with the Taurus 3 Ring Saw.

Stock Number: 20TU27
Each: \$34.95

Taurus Ring Saw Red Grommet

Also fits the Taurus 3 Ring Saw Blade Stabilizer.

Stock Number: 20TRSRG
Each: \$3.00

Taurus Ring Saw Blue Pulley Assembly with 4L Bearing TU-15

Stock Number: 20TRSBPA
Each: \$12.50

Taurus 2 Ring Saw Yellow Grommet

Stock Number: 20TRSYG
Each: \$3.00

Taurus 2 Ring Saw Raceway Set TU-12

Stock Number: 20TRSRS
Each: \$6.25

Taurus 3 Ring Saw Orange Grommet with Bearing Assembly

Stock Number: 20TRSOGA
Each: \$22.95

Taurus 3 Ring Saw Dichro Blade TU-32

Just for cutting thin Dichroic Glass. This blade has the popular slim blade design with a fine diamond grit that will not chip the delicate dichroic finish! Also works well with iridescent coated glass allowing you to form intricate shapes with perfect edges. Clean edges mean lower temperatures and faster firing times for kiln fired jewelry creating a clean professional look.

Stock Number: 20TU32
Each: \$93.75

Taurus Ring Saw Drive Belt TU-10

Stock Number: 20TRSDB
Each: \$22.75

Taurus Ring Saw Small Bearing R-2 TU-16S

Also fits the Taurus 3 Ring Saw Blade Stabilizer.

Stock Number: 20TRR2
Each: \$7.95

Gryphon Zephyr Ring Drive Belt GRY-27

Stock Number: 20ZRSDB
Each: \$27.95

**Gryphon Zephyr Ring Saw Replacement Blades GRY-26**

Stock Number: 20ZRSRB
Each: \$49.40

GLASTAR DIAMOND COATED DRILL BITS

Mastery in minutes, perfect holes in seconds. Pour a teaspoonful of water on the glass where you want to drill. To start the hole, tip the drill at a 45 degree angle to the glass. When you've made a slight indentation, rotate the drill in a circular motion at about a 15 degree angle. Continue this rotation, at this angle, until the hole is completely drilled through. As you get close to the end of the hole, push lightly on the drill to avoid breaking through and chipping the glass.

The drill bit makes an irregular-shaped hole. To smooth it out, and to make it the correct diameter, continue through the hole with the shoulder of the drill bit. Hole the drill straight up and down as you do this. The result; the perfect hold of your choice.

Drill Glastar Diamond 1/8

These unique diamond-coated drill bits will grind clean holes in glass more effectively than any other drill bits on the market. Simple to use and fit any portable electric drill. Needs only water as lubricant. Comes with instructions.

Stock Number: 20DD18G
Each: \$20.95

Drill Glastar Diamond 1/4

These unique diamond-coated drill bits will grind clean holes in glass more effectively than any other drill bits on the market. Simple to use and fit any portable electric drill. Needs only water as lubricant. Comes with instructions.

Stock Number: 20DD14G
Each: \$20.95

Drill Glastar Diamond 3/8

These unique diamond-coated drill bits will grind clean holes in glass more effectively than any other drill bits on the market. Simple to use and fit any portable electric drill. Needs only water as lubricant. Comes with instructions.

Stock Number: 20DD38G
Each: \$23.95

GLAZING TOOLS

Often the final and most important step in completing a lead panel is known as "glazing" Cement or putty is worked between the glass and the lead came for extra strength and weatherproofing. This is a necessary step even if the panel is for indoor use. Many a lead panel has failed over time simply due to improper application. Please read the manufacturers instructions carefully.

Carborundum Stone

Tired of jagged or dangerous edges on your glass? Use this specially designed stone to safely remove sharp edges from glass.

Stock Number: 2007
Each: \$6.50

Flat Lathekin

Perfect for burnishing foil onto glass and opening the channel in lead came.

Stock Number: 20203
Each: \$1.45

Glazing Hammer

Double headed, hard rubber on one end, high impact plastic on the other. Fiberglass Handle.

Stock Number: 2037
Each: \$10.95

Glastar Lead Vise

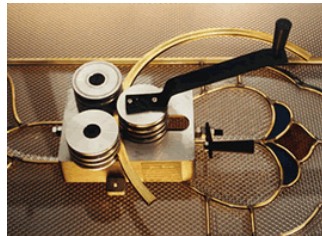

This vise utilizes a strong spring and grooved teeth to keep lead came in place while stretching. Made of die-cast aluminum for years of trouble-free use.

Stock Number: GLAS40550
Each: \$14.50

Cascade Came Bender

This amazing tool can be used to form bends in brass, copper and zinc. Rolls U as well as H. No need to change rollers.

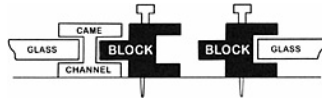

Stock Number: 20CB1
Each: \$123.95

Lead and Glass Stop Blocks (package of 25)

High strength polymer blocks replaces the scrap lead used to prevent horseshoe nails from chipping the glass. Also a secure way to raise the height of a piece of glass.

Stock Number: 20LGSB
Each: \$6.95

Fidstick

Used for copper foiling, opening and closing lead channel, lifting glass to fit into came, removing putty and just about anything you can think of. Designed for flattening foil. Angled top gets into corners. Rounded front smoothes without tearing. Plastic.

Stock Number: FIDL
Each: \$3.15

Horseshoe Nails (Box of 100)

Box of 100. From Sweden. Flatsided to hold lead in place.

Stock Number: 250101
Each: \$10.50

Aluminum Push Pins Box of 16

Used by some in place of nails on soft workboards.

Stock Number: 251013
Each: \$4.95

GRYPHON MITER SAW

Some saws may have instructional books and videos available for download. Please click the product name for more information.

Please Note: All saws are 120 volt unless otherwise stated.

Gryphon Miter Saw

The Gryphon Miter saw is particularly well suited for making premium cuts in brass, zinc, steel and copper came, as well as zinc and steel brace bar. It has a very fine abrasive blade that cuts cleanly and coolly resulting in a minimum of flash. Please note that this blade is not designed for cutting lead came as the blade will clog. A large adjustable table provides settings for accurate angles. The chop saw design along with the built in clamp for the work and safety shield provide protection to the operator.

Stock Number: 20CS1
Each: \$298.50

Gryphon Miter Saw Abrasive Replacement Blade GRY-2

For cutting brass, zinc, steel and copper came, as well as zinc and steel brace bar. Not for use with lead came!

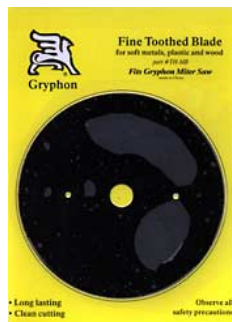

Stock Number: 20CS11
Each: \$12.95

Gryphon Miter Saw Lead Cutting Replacement Blade GRY-8

This new toothed blade makes it possible to cut lead came with the Gryphon Miter Saw.

Stock Number: 20CS12
Each: \$16.95

LEAD DIKES

Fan Out Lead Dikes

Excellent quality import with adjustable stop and spring return. Our Favorite.

Stock Number: 2018
Each: \$39.95

**Lead Dikes**

High quality import geared to general use. Excellent for students.

Stock Number: 20191
Each: \$12.25

MORTON SYSTEM TOOLS

Morton System Tools are designed to make glass projects more safe and rewarding. They seek to simplify more difficult glass cuts and even help keep your glass from getting scratched. Some Morton System Tools make 3D glass art easy and laying out your project fun. Please take a look at the "How to use this product" link to learn more about how each project can make working with glass more enjoyable.

Please Note: The Morton System Work Surfaces are currently unavailable from the manufacturer.

Morton Mini Surface Plus

The Mini Surface Plus is two 11-1/4" x 15-3/4" interlocking panels that are 100% compatible with all Morton cuatting surface accessories. Use 2 Mini Surface Pluses to make a Maxi Surface. Please note: Due to the size of this item the actual shipping charges may be higher than the quoted shipping.

Stock Number: MORSS02P
Each: \$34.95

Morton Circle and Border System

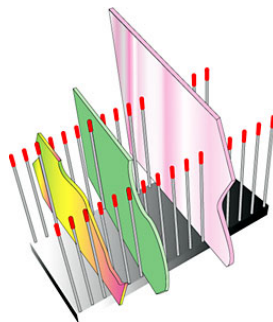

List Price for this item is \$99.95. The ultimate accessory for the Morton Portable Glass Shop. Creating borders, especially circle borders used to be a pain. Not anymore. Detailed instructions make set up simple. The included CD Rom, PC and Mac compatible, makes the calculations for you for a perfect fit and a lot less scrap. Creates circles up to 13" and borders up to 14". Shown with Morton Portable Glass Shop (20PG01B) and Morton Maxi Surface (20LS01), sold separately. The Circle and Boarder System is easy to use, but it is very left or right hand orientated. Download the version of the user manual that applies to you.

Stock Number: 20CBS1
Each: \$89.95

Morton Glass Caddy

The Glass Caddy is a great and efficient way to store your valuable glass. Designed for glass pieces not larger than 12" X 12". The rack has 15 slots that can hold up to three pieces of glass each. Can hold up to 45 square feet of glass.

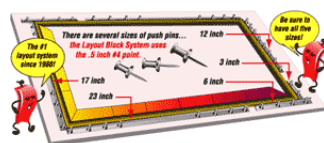

Stock Number: 20GC01
Each: \$15.95

Morton 12" and 3" Layout Add-ons

Used to increase the size of the Layout Block System. Four 12" and four 3" aluminum block and 40 push pins. Be sure to read page three on "How to use this product" below.

Stock Number: 20LB02
Each: \$15.95

Morton Grinder Tongs

Perfect for holding those very tiny pieces that seem to destroy your finger tips while grinding.

Stock Number: 20GA04
Each: \$10.75

Morton Fence Extension

The Morton Fence Extension adds 5" to the Portable Glass Shop Squaring Fence. Comes with two ruler options for left or right handed use. Graduated in inch or metric scales.

Stock Number: 20PG02B
Each: \$12.95

Morton Portable Glass Shop

This is the 2012 version of the Morton Portable Glass Shop. The Morton Portable Glass Shop has fixtures that plug into your Morton Mini or Maxi Surface that assist you in cutting accurate squares, diamonds, trapezoids, and all other geometric shapes. It is great for repetitive cutting too! New features like a reversible squaring fence for regular and thin art glass, cool fixtures like the fast angles, metric and inch scales, cutter slide, fence extension and audio support make this a must have for art glass enthusiasts!

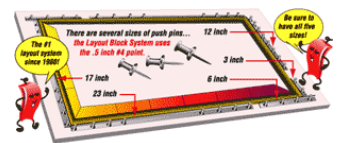

The 78 minute audio CD and the instruction manual will get you up to speed and allow you to use the new Morton Portable Glass Shop faster and easier than ever before. Since no one really likes reading the directions this audio CD is a great new addition.

Stock Number: MORPG01B
Each: \$115.95

Morton Layout Block System

The Layout Block System replaces the traditional wood strip and horse shoe nail layout board. The ten, 6" aluminum blocks and 40 push pins work great with inexpensive ceiling tiles as your layout board and soldering surface. Be sure to read page three on "How to use this product" below.

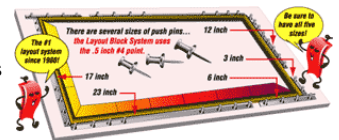

Stock Number: 20LB01
Each: \$15.95

Morton 23" Layout Add-ons

Two 23" aluminum layout blocks and 16 push pins. Be sure to read page three on "How to use this product" below.

Stock Number: 20LB23
Each: \$10.85

Morton GS Assembly Tray

Interested in making a 3D glass project? This product makes assembling 3D glass projects fun and easy. It has three pockets, each of which is designed to make a different geometric shape. Instructions for 8 projects are included.

Stock Number: 20PG05
Each: \$21.50

Morton Teeny Circle System

Make circles up to 6" with the new Teeny Circle System. Designed for the Toyo pattern head. Fits most glass cutters with simple modifications. White plastic turn table is $\frac{5}{8}$ " x 7-3/8" with a round center pin that fits into a Morton Surface.

Stock Number: MORTCS1
Each: \$22.95

Morton Twister

The Morton Twister is used to twist wire for your decorative needs. Angel halos and cowboy lassos are examples where two copper wires are twisted together to make a decorative wire. The Twister is also used to create decorative borders from "H" lead came.

Stock Number: 20MT01
Each: \$5.95

Morton Safety Break SB01

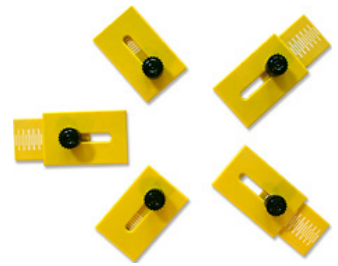

This two part glass breaking tool allows you to start the break anywhere along the score. It is designed to work with the Mini or Maxi Surfaces, which are sold separately. Simply position your score line over the breaking button and apply gentle pressure with the push block. The score will run from end to end with no rough or jagged edges resulting in a perfect break everytime.

Stock Number: MORSB01
Each: \$16.95

Morton Glass Stops

Package of 5 extra Glass Stops for the Morton Portable Glass Shop.

Stock Number: 20PG06B
Each: \$21.50

Morton Cutter Caddy

The Cutter Caddy is one of those items that you don't need to do great glass work, but it does make working with glass more organized. Caddies plug into a Mini or Maxi Surface to keep cutters and pens handy. One helpful function of the Caddy is how you can use it as a cap for your "Sharpie" pen when you are making pattern lines on your glass. As you know it takes two hands to remove your "Sharpie" cap and you usually only have one hand free. The Daddy replaces the cap, it is easy to find and remove when marking your glass. Note: Replace the cap when your done to prevent the pen from drying out.

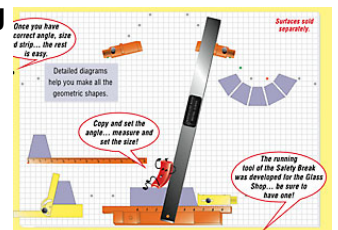

Stock Number: 20CC06
Each: \$5.95

Morton Studio Cutting Bar

Use this Cutting Bar as a critical part of Morton's Portable Glass Shop to guide your glass cuts. Be sure to take a look at page 3 in "How to use this product".

Stock Number: 20PG03
Each: \$17.50

ORGANIZE YOUR TOOLS

Organize your supplies and tools so that projects go easier. These products will help get you started in the right direction!

Inland Glass Station

Regular Price \$29.95. A complete tool organizer and work station that can hold all of the tools and supplies that a stained glass crafter use. You will no longer have to worry about spilled flux and other chemicals!

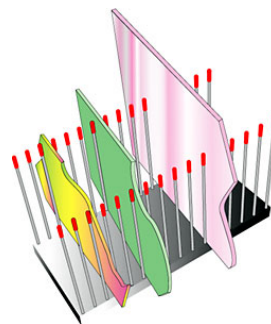

Stock Number: 20483
Each: \$31.95

Morton Glass Caddy

The Glass Caddy is a great and efficient way to store your valuable glass. Designed for glass pieces not larger than 12" X 12". The rack has 15 slots that can hold up to three pieces of glass each. Can hold up to 45 square feet of glass.

Stock Number: 20GC01
Each: \$15.95

Morton Cutter Caddy

The Cutter Caddy is one of those items that you don't need to do great glass work, but it does make working with glass more organized. Caddies plug into a Mini or Maxi Surface to keep cutters and pens handy. One helpful function of the Caddy is how you can use it as a cap for your "Sharpie" pen when you are making pattern lines on your glass. As you know it takes two hands to remove your "Sharpie" cap and you usually only have one hand free. The Caddy replaces the cap, it is easy to find and remove when marking your glass. Note: Replace the cap when your done to prevent the pen from drying out.

Stock Number: 20CC06
Each: \$5.95

PATTERN SHEARS

James Easycut Lead Pattern Shears

James Easy Cut pattern shears take the hassle out of pattern cutting. These shears cut out thick pattern lines a similar size to the heart of the lead came. This gives you correctly sized pattern pieces from which you will cut your glass. It has a unique blade design and precision stainless steel blades that virtually eliminate jamming, tearing or folding. The ergonomic handles make them comfortable and easy to use. Also, the spring loaded action allows you to cut patterns out in half the time with less hand fatigue. Its blade adjusts tension for different weight pattern stocks.

Stock Number: 20EZCS
Each: \$17.45

**Fanout Lead Shears**

Excellent quality import. Ambidextrous with plastic handles. FOR LEAD.

Stock Number: 20461L

Excellent quality import. Ambidextrous with plastic handles. FOR COPPER FOIL.

Stock Number: 20461F
Each: \$27.95

PLIERS

Whether you're trying to open that stubborn jar or need to make glass breaks easier, our pliers and wrenches will get the job done!

Running pliers apply even pressure on both sides of a score, making a controlled gentle break on the glass. Breaking or grozier pliers are used to assist glass brakes as well. However, they really work well for smaller pieces of glass or jagged edges that need evening out.

Choice Breaker / Grozier Pliers

Stock Number: CHBGP
Each: \$9.95

Glastar Glass Snapper

The Glass-Snapper is a running plier for 1/8" or thinner glass that takes the fear out of breaking small pieces of glass. The trigger action makes it easier and faster to break out difficult cuts that may be impossible by hand. Operation is easy - Score your glass with a glass cutter. Hold one side of the glass with one hand. Push the glass into the Glas-Snapper jaws about 1/4" to 1/2" deep, lining up the scoreline with the center ridges in the Glas-Snapper. Gently squeeze. The glass will separate and break away, down from you. The glass piece you are not holding will fall away.

Stock Number: 20GS
Each: \$6.95

Steel Running Pliers

Running pliers apply even pressure on both sides of a score, making a controlled gentle break on the glass. Good quality import. 8" long adjustable metal pliers, plastic tipped jaws, plastic handle. 1" wide jaw.
